THE REPUBLICAN.

Established 1869. BELLEFONTE, PA., THURSDAY, NOVEMBER 8 1923 Vol. 54 No. 44

Landslide Vote Defeats Brown For Sheriff Yarnell For Commissioner & Love For Dist. Atty.

Republicans Elect Wilkinson, Prothonotary; Heverly, Treasurer; Stover, Recorder; Rossman, Register; and Musser and Holter, Auditors.

Tuesday was Taylor Day at the polls in Centre County.

The Democratic nominee won for Sheriff over Brown, Republican, by 3619 majority, in a Democratic landslide that was given a tremendous impetus by soldier sentiment.

County Commissioner Geo. H. Yarnell, Republican, went down in the crash, as did also John G. Love, Republican, for District Attorney. The latter was defeated by Arthur C. Dale, Democrat, by 1122 majority. The Democratic County Commissioners elected were John S. Spearly and James W. Swabb. Republicans re-elected County Commissioner Harry P. Austin and become a minority factor in the Board of Commissioners.

Despite the greatest splitting of tickets probably ever known in the County, the Republicans re-elected Prothonotary Roy Wilkinson, by 89 majority, and also elected J. O. Heverly for County Treasurer by 326 majority; elected Harry Rossman for Register by 1398 majority, and elected Lloyd Stover for Recorder by 38 majority.

The Republicans also elected both candidates for County Auditors, Robert D. Musser and Samuel B. Holter. The Democrats elected Herbert H. Stover. Jonathan Condo, Democrat, was defeated by Holter by 89 plurality. The vote stood: Musser, 6201; Holter, 4843: Stover, 5889; Condo, 4754.

There are 73 mailed votes from voters who were out of the County. These votes are sealed and may not be opened and counted until after the official count, which begins today, is completed. By far the greater number of mailed votes are from Republicans. An even split of these 73 votee would not affect Stover's majority.

Owing to the vote for Recorder being so close, this newspaper, which had tabulated the unofficial returns, made a second tabulation, taking each precinct return sheet, checking and re checking it, and also checking and re checking the adding machine figures. This showed the vote to stand: Stover 5968, and Hoy 5957, or a margin of 38 for Stover.

A second tabulation, checked and rechecked, of the vote for Prothonotary was also made by this newspaper, the adding machine figures also being checkand re-checked. This tabulation showed the vote to stand: Wilkinson, 8046, and Herr 5922, or a margin of 89 for Wilkinson.

Bellefonte, the home town of both candidates for Sheriff, was no different from any other section in the great sweep for Taylor. Soldier sentiment for him had run riot in the closing days of the campaign and when the vote was counted it was found that he had carried Bellefonte borough by 844 majority. All three wards in the borough lined up overwhelmingly for him. The North Ward gave him 622 to 196 for Brown, the South returned him 493 to 213 for Brown, and the West voted 199 for him to 61 for Brown.

Never probably in the history of Bellefonte has there been witnessed such heavy cutting of tickets by both parties. In the North Ward where 818 votes were cast there were but 100 straight Republican votes and only 83 straight Democratic votes, leaving about 635 split tickets for the election board to count. It was 9 o'clock, or later, in the morning when the board finished.

Bellefonte borough stood loyally by Love for District Attorney. He carried his home ward, the North, where Dale also resides, by 93, and he also won in the South by 59. He lost the West by only 5. Love's majority in Bellefonte was 137. This, when compared with the landslide majority of 844 for Taylor represented a decisive reversal of 981 votes, which is splendid tribute to Love's popularity.

The only borough contest in Bellefonte was that for two Overseers of the Poor. Alexander Morrison and Thomas Fleming, Republicans, won out over William Rider and Ann Badger. Fleming and Morrison carried all three wards. Fleming had 425 in the North, 420 in the South, and 191 in the West, making a total of 1036. Morrison had 454 in the North, 303 in the South, and 94 in the West, giving him a total of 851. Rider had 230 in the North, 229 in the South, and 91 in the West, or a total of 550. Badger received 282 in the North, 304 in the South, and 78 in the West, or a total of 664.

There were no contests in the borough for School Director and Council. Dr. M. J. Locke was re-elected School Director on all tickets. J. L. Dunlap and Darius Waite were elected to council in the West Ward, John S. Walker was reelected in the North, and Harry Flack and Harry Badger were chosen in the South.

PROTESTED DECISIONS

Bellefonte High School Team Resented Losing Touchdowns.

Bellefonte High School football team returned home from Tyrone Saturday night claiming that they had been deprived of a fairly earned victory over Tyrone High School by unjustified decisions of a Tyrone official. The score allowed at the close of the game was 14 to 7, in favor of Tyrone.

Bellefonte High School players stated that they scored three touchdowns which were ruled out on questionable decisions by the officials. Had these touchdowns been allowed Bellefonte would have been returned a winner. At one stage of the game Bellefonte players were so disgusted with the decisions against them that they wanted to leave the field. Randall Miller, the Bellefonte coach, very sensibly refused to permit this, preferring that the game be finished regardless of the handicap under which his boys were playing.

There has been some talk of Bellefonte High School severing all athletic relations, including basketball, with Tyrone, because of last Saturday's unhappy experience. If the decisions costing Bellefonte a victory were unfair, as our local boys believe, it is to be hoped that the offending official erred from ignorance of the rules and not for any other cause. This phase of the matter should be cleared up to the satisfaction of both sides before athletic relations between the two towns are severed.

The Bellefonte High School football enthusiasts are expecting a great game on Friday afternoon at 3 o'clock when the Lewistown High will play here at Hughes field. The game will likely be contested with much spirit by both teams, The local team defeated Milton and Mt. Union High elevens by a fair margin and the Lewistown High played with the same teams, winning by a close margin.

ANOTHER BIRTHDAY

A. G. Morris Greatly Enjoyed 89th Anniversary at Home.

A. G. Morris, one of our most highly esteemed residents, celebrated his 89th birthday anniversary on Monday and keenly enjoyed the event. Upwards of 100 friends called at the Morris home to leave flowers and congratulations.

A party of twelve friends from Tyrone sent a bouquet of 89 chrysanthemums, one for each year, and also participated with fourteen members of the family at the deliciousdinner served. The American Lime & Stone Company force sent a bouquet of 89 roses and many other beautiful floral tributes were received. The birthday cake at the dinner had 89 candles on it and Mr. Morris blew them all out, but not with one breath. Characteristic of his love for Bellefonte, he said, "And the cake was made in Bellefonte." His health is good and "The Republican" joins with his many friends in wishing happy returns of the natal day.

IMPROVED ROAD

New Stretch Does Away With Bad Curves at Clintondale

The road formerly known as the back road to Lamar which cuts off the turn down a steep hill and through Clintondale and which was recently taken over by the state Highway department, has been practically completed under the direction of Frank M. Sanderson, highway superintendent for Clinton county.

A steep hill with right angle turns at top and bottom, two sharp turns at the bridge by the Clintondale mills and three bad curves on the "loop the loop" leading into Lamar have been eliminated by the improvement of the more direct route into Lamar.

The lower part of the entrances to the bridge over the main stream of Fishing creek on the new route has been painted black and white, making it plainly visible at night.

Road Loan Wins.

The fifty million dollar road loan was approved at Tuesday's election throughout the State.

Unofficial Vote In Centre County, Nov. 6, 1923.

DUBOIS MAN IN JAIL TO ANSWER SERIOUS CHARGE

Accused of Selling Rubber Goods Prohibited by Law.

TWO HELD FOR COURT

The office of Kline Woodring, justice of the peace, was a busy place on Monday. Three hearings were held on as many different charges.

A man giving his name as H. B. Bauman, who claimed to have a wife and property in DuBois, was held in jail under bail of $1,000 for appearance at the December term of court to answer to serious charges preferred against him. A local physician made the information. It is alleged the man was visiting homes in this vicinity to sell rubber goods, the sale of which is forbidden by law, and that he made assertions of serious intent. He attempted to defend himself by stating that the people did not understand him. He is about 40 years old and was unable to furnish bail.

Butler Hamilton, formerly of Bellefonte and recently residing at State College, was held for court under $300 bail on a charge of obtaining an automobile under false and fraudulent representation. Butler was accused of taking the auto—a Dodge roadster owned by Chief Haines at the Blair jewelry store—and making a trial trip in it without the knowledge or consent of the owner. The car was damaged on this trip and brought back to the Hockman garage, it was averred, and then Hamilton went to the Sommers & Jodon garage at Pleasant Gap, where he purchased a Ford by trading in the Dodge and giving a check of $50, which was declared worthless when presented at the bank. It is further alleged Hamilton also passed a worthless check on a State College garage for gasoline.

Edward Fishburn, of Millheim, was charged with assault and battery upon an officer, J. C. Gramley, of Millheim. Fishburn furnished bail for $300.

Arm Shattered in Hunting.

While hunting near Centre Hall on Saturday, the right arm of Harry Warner, 20, of Lock Haven, was shattered by a charge of buckshot. The shot struck his arm between the elbow and wrist. He was climbing over a fence and the trigger of the gun caught in a branch, causing it to discharge. The bones were broken in two places and the flesh lacerated by the shot. He was taken to the Lock Haven hospital.

PURCHASED LOTS

Bellefonte Council Takes Action to Protect Reservoir.

At the regular meeting of Council on Monday evening, action was taken to purchase three lots about the reservoir on South Allegheny St., to prevent the purchase of the land by persons alleged to want the lots to build upon.

John Love, secretary of the board of health, was present with several residents from East Logan St., to make a complaint about the continual running of wash water into the gutters on that street by persons who have been warned to stop the nuisance. A petition was also presented that the persons have no other place to dispose of the water because there is no sewer and they will be willing to pay tap charges and connect with a sewer as soon as one is placed near their properties. It is estimated it would require 350 to 800 feet of sewer line. Definite action was postponed.

Al Stine was present and informed Council he was remodeling his house on East Howard St. and would like to have a new water pipe line because the present one is not sufficient. This was referred to the water committee.

The street committee reported a check of $102.80 from the state highway department.

The water committee received a check of $143 from the American Lime & Stone Co.

The fire and police committee reported to Deitrick & Dunlap to discontinue violating of the traffic ordinance by permitting cars to stop to the left side of Allegheny St. for gasoline.

It was reported several parties had been informed to dispose of ashes or rubbish heaps on their properties.

SEDAN UPSET

Clayton Musser Family, of Near Centre Hall, Escaped Injury.

Clayton Musser, his wife and daughter-in-law, had a narrow escape on Sunday evening, when their sedan left the road and turned upside down in an orchard. The accident occurred at the junction of the Earlystown and state roads.

Another car was coming up the incline from Old Fort and Mr. Musser intended to apply the brakes but stepped on the gas. His sedan plunged forward and upset down the embankment. None of the occupants was hurt and the sedan was only slightly damaged, one glass being broken and a wheel twisted.

Cars Collided at Curve.

At the curve on the state highway at Salona on Sunday night, the Miller taxi car, driven by Paul Miller, of Bellefonte, and a Ford sedan from Mill Hall, collided. Both cars were damaged, but the occupants escaped injury.

SEDAN IN CREEK

Darius Cole and Ernest Tate Have Narrow Escape.

Two well known local young men, Darius Cole and Ernest Tate, in the former's Chevrolet sedan, had a narrow escape on Sunday evening. Cole was very fortunate in not being injured at all, but Tate was bruised and sustained a severe cut, though not serious.

The young men had started to Snow Shoe Intersection to purchase some ice cream at the Davidson place. They were traveling at good speed along the concrete road in Milesburg and failed to notice the approach of the evening passenger train from Tyrone until too late to stop. They had their choice of crashing into the running train on the Weaver crossing, just west of Milesburg, or going into the creek. The latter course was chosen and the sedan overturned on the embankment, stopping upside down in Bald Eagle creek. The sedan was considerably damaged and was towed to a local garage for repairs.

POSTAL CLERKS INJURED

J. H. Foster, Aaronsburg Man, Among Those Injured in Wreck

Six postal clerks were injured, one seriously, early on Sunday morning when a passenger train ran into the rear of train No. 11, which was carrying Sunday newspapers from eastern cities and was at the tracks at the Mapleton water tank, two miles west of Mount Union.

D. S. Demmy, of Harrisburg, was seriously injured. The others injured were G. H. Moyer, Harrisburg; John H. Foster, Aaronsburg; Herman Brown, Herbert Zook, and E. E. Wilson, all of Harrisburg. A postal car, coupled next to the engine on No. 11 was badly telescoped and a combination car at the rear was smashed.

Howard Hunter Loses Eye.

Raymond Daughenbaugh, of Howard, 19 years old, has lost the sight of his right eye, as a result of the accidental discharge of his gun Friday while hunting in the woods near that place. A charge of small shot entered the eye and portions of the face. He was taken to the Lock Haven hospital, where the shot were removed, but it was found the sight of the eye had been destroyed and it was necessary to remove the eye ball. Mr. Daughenbaugh was shot by James Strunk, also of Howard. He was shooting at a rabbit and did not see Mr. Daughenbaugh. His condition is reported as favorable. Two shot also passed entirely through his neck, one close to the jugular vein, but these wounds are healing nicely.

ELKS ADD ABOUT $1,500 TO HOSPITAL BENEFIT FUND

Other Contributions Over Hallowe'en Season Are Gratifying.

REAL COMMUNITY WORK

At a meeting of the Elks on Monday evening it was found the amount cleared for the local hospital fund will be about $1,500. It was impossible to obtain the exact figures because some of the bills had not been received. Gradually, from many sources all representing real community effort, a very substantial boost is being given to the hospital benefit fund.

The Bellefonte Hospital is also very grateful for a truck load of good things received on Monday morning from the residents in the section in and about Pennsylvania Furnace also and of Pine Grove Mills. The articles were solicited by George D. Morrison, of Penna. Furnace, and Mr. and Mrs. Edward Frank, of Pine Grove Mills. They were delivered in the big auto truck of Keller & Co. The contributions were donated as follows:

C M Trostle: 1 bu apples, 1 bu potatoes; Alvin Corl: 2½ bu potatoes, 2 pumpkins; E Royer: 1 bu apples, 2 squash, 2 heads cabbage; Harry Illingsworth: 2 bu potatoes; Mrs. Anna Wagner: 2 bu apples, 1 bu potatoes; J H Witmer: ½ bu pears; Oscar Witmer: 2 bu potatoes; J H Bailey: 5 bu potatoes, 6 qts fruits, 3 glasses jelly; John Kocher: 10 heads cabbage, 3 pumpkins; C E Close: 4 bu potatoes, 3 pumpkins; Ernest Trostle: 1 bu apples, 1 bu potatoes, 10 heads cabbage; L G Peters: 2 bu apples, 2 pumpkins; I O Campbell: 5 bu potatoes, 8 qts fruit; Milo Campbell: 10 bu potatoes; Bertha Meek: 2 bu potatoes, 2 bu apples, 2 bu turnips, 1 lb butter, 3 packages corn starch 5 oatmeal, 1 gallon vinegar, 1 package raisins, 1 lb pearl barley, 2 cans peaches 2 cans strawberries, 1 jar olives, 1 jar peas; P I Wrigley: 2 bu potatoes; Samuel Homan: 1 can lard; Gordon Harper: 2 bu apples, 8 pumpkins; Mrs George Rossman; 3 jars fruit, 1 head cabbage; W S Ward, 2 doz pints peas; Mrs R G Goheen; 3 qts fruit, 3 glasses jelly; Ralph Judy: 2 bu apples, 2 bu potatoes; Mrs D H Peters: 4 heads cabbage; Mrs William Gardner: 1½ pecks apples, 2 lbs dry beans, 2 lbs dried corn, 3 glasses jelly; J W Peters: 2 bu potatoes; Edward Frank: 4 bu potatoes, 1 gallon lard; J H McCracken: 5 bu apples, 5 bu potatoes, 2 doz eggs; J F Fleming: 2 bu apples, 16 squash; A C Kepler: 10 bu potatoes; Mrs Allen Andrews: 2 glasses jelly, 1 head cabbage; W S Markle: 1 bu potatoes; Elisha Shoemaker: 4 bu potatoes; Mrs Emory Johnson: 6 qts fruit; E H Auman: 50 lbs flour; John Stover: 1 bu potatoes; Roy Strouse: 3 bu potatoes; Mrs John Strouse: 4 qts fruit, 5 lbs sugar; E P Houser: ½ bu potatoes, 2 bu apples, 4 glasses jelly; N C Neidigh: 2 bu potatoes; Ralph Ralston: 2 bu potatoes; Charles Strouse: 3 heads cabbage, 3 bu apples; James Markle: 1 qt fruit, 1 bu apples, 3 glasses jelly, 1 bu potatoes; W E Ralston: 2 bu potatoes, 2 bu apples, 6 glasses jelly, 4 qts fruit, 1 gallon apple butter; Milton Corl: 2 bu potatoes, 1 bu apples; O Johnson: 1 bu potatoes; J F Rossman: 25 lbs flour, 1 bu apples, 1 qt apple butter, 10 lbs buckwheat flour, 1 package coffee; R L Musser: 6 qts fruit.

Cash—Mrs Nannie Bailey, $1; H M Musser, 25 cents: W F Thompson, 25c; George R Dunlap, $1; W A Collins, 25c; J C Corl, 25c; S E Martz, 25c; J W Sundry, 25c; Fred Gearhart, 25c; W L Dodd, 25c; George Lauck, $1. G H Everts, 50c. G C Burwell, 25c; G Reed, 25c; C A Stuck, 50c; A S Bailey, 50c; J E Reed, 50c; J M Johnson, $1; R N Krebs, 50c; J I Reed, 50c; Charles Myers, 50c; R L Musser, 50c; E C Marks, $1; C D Lauck, 50c; J E Elder, 50c; Bert Lyle, 50c: John Sprankle, 50c; Dist Thomas, 50c; Russell M Eyer, 50c; W R Poust, 25c.

Mrs. James Summers and Mrs. Sena Confer, of AxeMann, masked as ghosts and with placards to support the Bellefonte hospital, gathered contributions on Hallowe'en and turned in $28 cash which was very much appreciated at the hospital.

Ford Coupe Damaged.

A Ford coupe, driven by Miss Mary Bippen, of State College, was considerably damaged when it collided with a culvert near Lemont on Sunday morning. Miss Bippen was nearing the oneway bridge east of Lemont and a car was approaching from the opposite direction. She did not think the approaching car would reach the bridge as quickly as it did, so that she could not cross it and turned to the side of the road, striking the culvert. She was fortunate in escaping injury.

YOUNG MOTHER TOOK HYPO-COD, NOW WELL

She Was Weak and Nervous Until She Started Taking Hypo-Cod

Mrs. G. J. Steindorfer of 524 Foreland St., Pittsburgh, writes, "After my baby was born I was in a very weak and run-down condition. I had a backache all the time and such a tired feeling that I could not possibly manage my own work. Several of my friends told me that I needed Hypo-Cod, that they knew it would help me. After taking four bottles I feel like a different woman. All my tired feeling has left me as well as my aches and pains. I am stronger than I have been for many, many days and I now find my work a pleasure. Every mother should know the health building qualities of this great tonic. If they suffer as I did, they will be very greatful for this acknowledgement of what Hypo-Cod did for me." You will find Hypo-Cod easy and pleasant to take with a wine-like flavor that is agreeable to the most delicate palate. It is helping thousands and thousands of Pittsburgh people to regain their health and strength, who are weak and run-down. We urge you to get a bottle of this powerful health-building tonic today from your druggist or send $1 to the Earle Chemical Company of Wheeling, W. Va., for a full sized bottle to be sent you prepaid.—Advertisement.

Up to the Dogs.

"As this is a government repair shop, I suppose the government will be willing to employ, say, three dogs to keep the rats down?" said Brown.

"I think so. How shall we pay them?" asked Jones.

"I was considering a scale to run something like this: To the best dog, three bones per diem; to the next best, two; to the third best, one bone," commented Brown.

"An excellent idea. It affords a chance for promotion, always an incentive to faithful work. But how shall we tell which is the best dog?"

"The dogs can decide that."

Profit and Loss.

A domestic disaster had occurred in the household and ten-year-old Bobbie had been sent on a hurry call to bring the family physician.

"Doctor, doctor!" he cried. "My little brother's swallowed a quarter. Would it pay to have you take it out?"—American Legion Weekly.

Obviously Not Bill Tilden.

"Is Bill much of a tennis player?"

"No; he is singularly bad in doubles, and doubly bad in singles!"

A Disappointed Lot.

A wealthy man visited a school and gave an address. When he was through he called a little boy up to him and said: "My lad, have you a purse?"

"No, sir."

"I'm sorry," said the rich man. "If you had I'd have given you half a dollar to put into it."

The same man was scheduled to speak there again the following month, and when he came the boys were prepared for him; an empty purse lay hidden in every pair of trousers. And sure enough at the end of his speech he called another boy to him. "Have you a purse, little man?" he asked.

"Yes, sir."

"I'm glad of that," said the speaker. "If you hadn't I should have given you half a dollar to buy one."—Boston Transcript.

Makes a Difference.

Veronica—Harry clapped his hands when I was singing.

"Over his ears?"

Man wants to discover his origin, but it is doubtful if there is any money in it.

"It Keeps Me Awake Nights"—

is the familiar confession of the tea and coffee drinker. The reason is that both tea and coffee contain caffeine—a drug which is the foe of night-time sleep and day-time energy.

Postum, the pure cereal beverage, is delicious and satisfying—and free from all the elements which so many users of coffee and tea find disturbing to nerves and digestion.

Postum contains no stimulant to keep you awake nights.

Sold by grocers everywhere!

Postum

for Health

"There's a Reason"

Your grocer sells Postum in two forms: Instant Postum [in tins] prepared instantly in the cup by the addition of boiling water. Postum Cereal [in packages] for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either form is about one-half cent a cup.

Battle Creek, Mich.

THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

LEGION AN AID TO FARMERS

Employment Bureau Operated in South Dakota Supplied Men During Harvest Season.

An American Legion employment bureau, operated in South Dakota during the harvest season, is regarded as having been one of the most effective checks in the spread of "I. W. W."-ism in the North and West. Through the services of the Legion's bureau hundreds of men known to be of non-radical tendencies were sent to the farmers of the Dakotas to obtain work, the radical type staying away from the Legion's employment agents.

The bureau was instituted by the Sidney E. Smith post of the Legion at Aberdeen, S. D. Service was rendered for a period of eight weeks, during which time the Legion placed 750 men of 1,100 registering, without cost. In some instances these men were sent 200 miles from the agency to a farmer who had turned to the Legion to obtain reliable help in harvesting his big crops.

But service did not stop with jobs alone. Many of the men arrived at the Legion tents, "broke," hungry and dirty. The Legion men provided 800 men with meals, gave lodging to 400 men, and arranged for a large number to receive free shower baths. Odd jobs were found for a large number to fill in until farm employment would be obtained.

Local police regarded a slip from the American Legion employment bureau as sufficient evidence that the man was all right, but those who did not have the Legion cards were usually told to move on. The project was given endorsement of federal, state and municipal authorities.

THOUSANDS IN BIG CONTEST

Many School Children Trying for American Legion's Americanism Prize Essay Cash.

Four hundred thousand American school children are participating in the American Legion's national essay contest on "Why America Should Prohibit Immigration for Five Years," according to a recent announcement of the Legion's national Americanism commission. Prizes amounting to $1,500, and medals for winning contestants of each state are offered.

The contest is open to all boys and girls between the ages of twelve and eighteen years; only one essay may be submitted by a contestant, and essays must be limited to 500 words each. Prize winners must use the money for scholarships in colleges of their own selection. First prize is $750, second $500, and third, $250. In addition to the cash prizes the best paper in each state will be awarded a silver medal, the second best paper a bronze medal, and the third a certificate of merit from the national office of the Legion.

The contest will be held through the counties and states. The three best essays in the states will be forwarded to the office of the national Americanism commission of the Legion, where they will be judged for national honors.

"To promote interest in patriotism among the younger generation and to foster education," is the announced purpose of the contest.

LEGION PLANS TO AID POLES

Organization Will Endeavor to Have Naturalization Requirements Amended in Their Favor.

The assistance of the American Legion has been asked for a group of American-born men who seek easing of naturalization laws because of war service in the Polish army.

"Haller's Army," a contingent of American Poles, fought at the side of allied troops all through the war. Their service caused them to lose rights as American citizens, and in order to obtain citizenship they must pass through the same formalities as would an alien seeking naturalization.

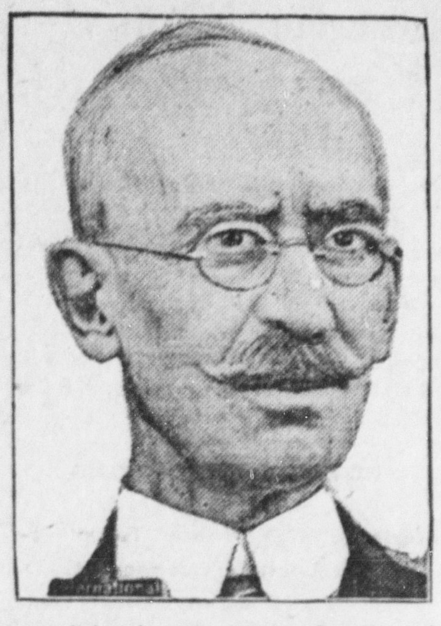
The veterans base their plea for the Legion's aid on the fact that they served with allied troops and should be entitled to naturalization by display of an honorable discharge and testimony of witnesses to their service. Others in this army were citizens of Poland, then subjugated by the enemy, and were classed as enemy aliens, although they fought with the allies. Efforts will be made to reduce naturalization requirements for these men, as well as those who were previously citizens of the United States.

To Aid in Conserving Forests.

The American Legion will assist in the conservation of the giant redwood forests of California from inroads by lumbermen and destruction by fire. Recent action by the organization provides for co-operation with other agencies seeking to save the forest monarchs. If any preserve or park is created, it has been suggested to the Legion that it be named in honor of Joyce Kilmer, poet-soldier of the A. E. F., who died in France.

WHO'S WHO—and WHEREFORE

Crowder's Job in Cuba No Soft Snap

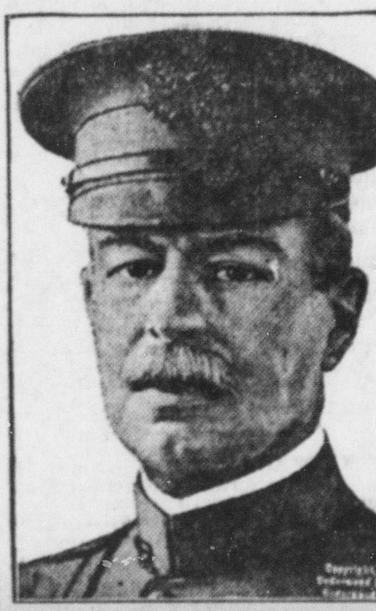


Maj. Gen. Enoch H. Crowder, whose name will never be forgotten by this generation of Americans, is now having troubles of his own as ambassador to Cuba. When President Zayas came into power he gave his unqualified indorsement to the reform program which had been urged by General Crowder at Washington. Administration officials believed there was to be little difficulty in putting through the reforms, regarded as necessary for the salvation of Cuba.

Since that time, however, Ambassador Crowder has encountered numerous difficulties, including many evidences of wabbling on the part of Zayas. It is admitted there have been times when it seemed that intervention was inevitable.

While President Coolidge is keenly appreciative of the obligation of the American government toward Cuba and would not hesitate to intervene in the affairs of the island republic, if necessary, it has become known that he and Secretary of State Hughes are counting on the development of an enlightened public opinion among the Cuban people which shall act as a check upon graft and a powerful factor for reform.

Patrick, Air Chief, Wins Pilot's Wings



Maj. Gen. Mason M. Patrick, chief of the army air service (portrait herewith), celebrated his sixtieth birthday by winning for himself what all aviators covet—pilot's wings. Aside from his army record, General Patrick has now three claims to distinction: He is the only officer of his rank who is entitled to wear pilot's wings; he is the only chief of air service ever to qualify for an aviator's rating; and he is the only man in the entire world known to have taken up and to have learned the art of flying at his age.

When General Patrick found he had to fly and didn't know the first thing about flying, Maj. Herbert A. Dargue was assigned to teach him. Patrick said to him, "Forget the rank, Dargue—you're to teach me to fly—and you can go as far as you like if you have to cuss me out."

Dargue may or may not have done any "cussing", but the chief is said to be as good a flier as there is in the army.

Maj. Gen. Patrick says in the Army and Navy Journal regarding the recent bombing tests off Cape Hatteras: "The air service does not for a moment assume to say that battleships or any other component of the naval establishment is obsolete. We merely rest on the conclusions of the joint board that under proper conditions we can put out of commission or sink any naval craft that floats."

Important Finds by Fossil Hunters

International

Here is a new portrait of Roy Chapman Andrews, one of the leaders of the third Asiatic expedition of the American Museum of Natural History that has just returned from the plains of Mongolia. The expedition is bringing back from China nine tons of fossilized bits of the dim past. These cover animal life that existed between 25,000,000 and 10,000,000 years ago in what are now the deserts and plains of East Central Asia. Among these fossils are 25 eggs laid by dinosaurs, gigantic reptilian creatures of a prehistoric era.

This expedition has apparently collected evidence to prove two things of great scientific importance: (1) That central Asia was the site of a real "Garden of Eden"; (2) that Asia and America were once united by a bridge of land over which prehistoric life roamed freely. They have definitely linked up the fossils of Asia with those of America. From the Siwalik hills of northern India, a collection that ranks with the Mongolian find has arrived at the museum. It includes among its tons of animal records four specimens, estimated to be 1,500,000 years old, that may be either man's or ape's. That these may prove to belong to the "missing link" is the possibility held out by the museum authorities.

League of Nations for Bird Protection

Although it has proven a difficult matter to create a political league of nations, T. Gilbert Pearson, president of the National Association of Audubon societies, has demonstrated the possibility of creating a league for the very useful purpose of protecting the wild birds of the world. Leading scientific and conservation societies in nine countries have now organized and pledged to active endeavors for the protection of the birds in their countries, and in aiding similar movements in more benighted regions.

This movement was launched at a conference held in London in June last year. On invitation of Mr. Pearson delegates from several countries met in the home of Hon. Reginald McKenna. Among the very active members of this conference were Lord Edward Grey and Lord Buxton of England, P. G. Van Tienhoven of Holland, and the eminent naturalist, M. Jean Delacour of France. Mr. Pearson, president of this international committee, who has returned from a lecturing tour through seven of the countries in Europe, said: "Europe is looking to America for leadership. There is no country in the world that is so thoroughly organized and has such advanced laws for bird protection as the United States. Our international organization is now in effective operation in the United States, Canada, Australia, Norway, England, Holland, Luxemburg, France and Italy. Other countries have recently been invited to unite with the movement and action by them may be expected."

GIRLS! A GLEAMY MASS OF BEAUTIFUL HAIR

35-Cent "Danderine" So Improves Lifeless, Neglected Hair.

An abundance of luxuriant hair full of gloss, gleams and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drug store.—Advertisement.

In Those Good Old Days.

It was in the early days of sleeping cars.

"Porter," cried a passenger as the train gave a jolt and dragged his last sheet of bed clothing aside, "bring me a corkscrew."

The porter came hurrying along the aisle.

"Sorry, sir," he said, respectfully, "but we don't allow drinking in the berths."

"I don't want to drink," retorted the passenger. "I merely want to extract a pillow that has worked its way into my ear."—Philadelphia Inquirer.

Long Spell of Bad Weather.

They met after a lapse of many years. The recognition was mutual and their greetings were cordial.

"How lovely to see you again. Why, you've scarcely changed a bit," said one.

"So glad; and you, too, have hardly changed. Let's see, how long is it since we last met?" returned the other.

"It must be ten years."

"Time flies. And why have you never called to see me?"

"My dear, just look at the weather we've been having."—Minneapolis Tribune.

Big Improvement in Oil Lamps.

How would you like to cut your lighting bill in two, do away with shadow under your hanging lamps, and greatly increase the light and comfort in your home. If so write us at once for information. Send name and address to Dept. W, Angle Lamp Co., Inc., 116 W. 39th St., New York City. Advertisement.

Trying to Cover Up.

Miffles, whose social bulls are notorious, found himself at a party talking to a melancholy looking man whom Miffles did his best to cheer. He indicated a lady of more than usual lack of beauty and said, "Heavens, who do you suppose that hideous old dame is?"

Of course, the melancholy little man said, "That's my wife."

Miffles had done it again, but his kindly heart went blundering on, inspiring him to say, "Cheer up, old man; you ought to see mine."

Shave With Cuticura Soap

And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no slimy soap, no germs, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.—Advertisement.

The Doctor Was Out.

She was a maid who had been with the doctor for years and the habitual expressions of those years could not easily be laid aside.

When the doctor died she remained at the house. An old friend of the doctor, who had been abroad and had not heard of his death, called and was admitted.

"I would like to see Dr. B— " he said.

"I'm sorry," said the maid, "but the doctor is dead."

Stricken by this intelligence, the visitor sat silent for a minute, when the maid said: "Will you—will you—wait?"—Boston Transcript.

Why buy many bottles of other vermifuges when one bottle of Dr. Peery's "Dead Shot" will work without fail? Adv.

Companions in Evil.

The parrot had been naughty and hurt the baby. This made the mistress so angry that she threw the bird under the bed, where it remained in disgrace.

When the husband came home he inquired for the bird, and was told that it was under the bed.

As he crawled in after it, the bird inquired: "Halloa, what have you done?"—Judge.

No man realizes as promptly that he is a failure as he does that he is a success.

Any sensible young man will draw the line at cigarette-flavored kisses.

CHARACTER TELLS
THE STORY!

People throughout this country are giving more thought to hygiene and to the purity of remedies on the market, but no one doubts the purity of Doctor Pierce's vegetable medicines, for they have been so favorably known for over fifty years that everyone knows they are just what they are claimed to be. These medicines are the result of long research by a well-known physician, R. V. Pierce, M. D., who compounded them from health-giving herbs and roots long used in sickness by the Indians. Dr. Pierce's reputation as a leading and honored citizen of Buffalo, is a sufficient guarantee for the purity of that splendid tonic and blood purifier, the Golden Medical Discovery, and the equally fine nerve tonic and system builder for women's ailments, Dr. Pierce's Favorite Prescription. Send 10c. for trial pkg. tablets to Dr. Pierce's Invalids Hotel, Buffalo, N.Y.

Rich Junk Man Hard to Locate

Eli Joseph of New York Has Personal Property Valued at $3,000,000.

New York.—Eli Joseph, the junk dealer, who is listed by the assessors as the man who owns more personal property than anyone else in New York, is the hardest man in the world to trace. Possessed of $3,000,000 of pictures, jewelry and other belongings—two millions more than John D. Rockefeller can boast—Eli Joseph is not to be found through telephone book, city directory or classified business list.

In fact, the New Yorker who has more personal belongings than anyone else of all the city's millions does not even live here. For two years he has been traveling through Europe. At present he is in Paris, where he went to consult medical specialists.

Picked out—his attorney says "picked on"—by the board of assessors as the man who will be taxed highest next year for his personal possessions, Eli Joseph is practically unknown to the rank and file of his fellow citizens. His name appears twice in the telephone book. But the house on Madison avenue has been "temporarily disconnected" and the Plaza hotel informs you that "Mr. Joseph gave up his suite here about two years ago." In the business directory his name does not appear at all. You begin to think him a myth until, by roundabout means, you discover that he has a business address at the Woolworth building. You call up this address. And you don't get an answer.

Appraisal Held Ridiculous.

Determined to run down the mystery of the $3,000,000 invisible, you go out to the Woolworth building and look under "Js" on the directory. "Jessup" is the nearest you get to Joseph. You ask the elevator man. "Oh, yes, Mr. Eli Joseph had an office here which he gave up perhaps five or seven years ago."

Well, but for mercy sakes, you protest frantically, a man with a million dollars' worth of personal property must live somewhere. He must have business representatives. A lawyer—

So at last your path ends before the door of Norman Kernwood's office in the Woolworth tower. And here you learn that far from being flattered at the thought of his selection as the richest personal property owner in New York City, Eli Joseph does not like the idea at all. His attorney, in fact, says it is both "ridiculous and outrageous" to appraise the Joseph effects at $3,000,000.

This, however, is a matter between the attorney and the assessor. The thing of immediate importance is that not only does Eli Joseph exist, but he has actually been seen by human eye in and around New York.

Business Inherited From Father.

It is dramatic enough to call him a junk dealer. The thought of a junk dealer possessing $3,000,000 worth of personal effects strikes the imagination a two-fisted rap. It is true. Mr. Joseph was a junk dealer—inherited the business and some millions of dollars from his father. During the war he sold scrap iron and steel to Italy, reaping millions more. And if a man who buys up all the scrapped rails of a railroad system at one lick is a junk man—then Eli Joseph is it.

For the rest, he is a splendidly-built man of forty-six, with black hair and black eyes and small, dark moustache. His shoulders are broad; his height about five feet eight inches.

His manner is affable; his clothes fashionable, but not fussy; and his birthplace was Cincinnati.

How—and it is the natural question—does a man who comes from sorting scrap iron find such an interest in art? The world by now knows that most of the $3,000,000 appraisal by the assessors is on a stupendous collection of paintings by old masters, now stored in the Madison avenue house. These include pictures from the brush of Corregio, Veronese and Cortez.

The exact truth knocks a bit of the drama out of the situation. Mr. Joseph inherited an artistic taste with the million or so which he inherited from his father—and he cultivated that taste at Harvard. He speaks, by the way, five languages.

During the war, Joseph served on the scrap iron and steel committee of the war industry board; he was knighted by the king of Italy for the despatch with which he shipped steel and he equipped, at a cost to himself of $100,000, some 2,000 volunteer firemen to take the place of the regular men who joined the army.

May Use Plane in Mine Rescue Work

Washington.—The adaptability of airplanes as aids to mine rescue work is being tested by the Department of the Interior near Birmingham, Ala., where a landing field has been located, and trial flights of ships are being made carrying trained men of the bureau of mines equipped with oxygen breathing apparatus to help in imaginary mine disasters. Other fields are to be located at mining towns within reasonable flying range of Birmingham, the mine rescue station.

The bureau maintains ten railway cars and seven auto trucks equipped for mine rescue purposes, but it often requires considerable time to send these mobile units to remote mining camps where they are needed in emergencies.

DEMOCRATIC LEADER

Copyright Underwood & Underwood

George Brennan, leader of the Illinois Democrats and a power in national politics, had a long conference with Woodrow Wilson and the air was soon full of rumors that the former president was ready to take an active part in the coming presidential campaign.

Foreign Signs Forbidden.

Constantinople.—Foreign shops have been ordered to remove their French and English signs, and to replace them with signs in the Turkish language. The report that foreign newspapers will be suspended is not correct.

"Gaseous Ores" Taken From Air

Many New Kinds Being Used for Commercial Purposes; $30,000,000 in Plants.

Chicago.—Mining the air is a picturesque term that has been applied to the extraction of "gaseous ores" from the atmosphere. Strictly speaking, the air we breathe is a mechanical mixture of a number of gases, and it is because these gases are mixed mechanically and not combined chemically that it is practicable to separate or extract them commercially in order that they can be utilized for different purposes.

The elementary gases in the atmosphere are eight in number, so far as present knowledge discloses. They are found in the following proportions: Nitrogen, 78 per cent; oxygen, 21 per cent, and the remaining 1 per cent, by volume, consists of argon, neon, krypton, xenon, hydrogen and helium.

Air Products Industry New.

The air-products industry, which is concerned commercially with the extraction of the gaseous ores of the atmosphere, is a relatively new comer in our busy life. Its development followed the perfecting of apparatus for compressing and refrigerating air to a liquid state. After the air is liquefied, the various elements composing it may be separated from one another, because each has its own evaporation point.

Perhaps 99 per cent of the oxygen recovered from the air is now used in welding and in cutting by means of the oxyacetylene torch. Because of the intense heat generated in burning these gases together—that is, a temperature of 6,332 degrees, Fahrenheit, steel and iron can be cut or welded readily and quickly.

Nitrogen and argon have come into rather wide application for filling incandescent lamps. Until recently, the common practice in lamp making was to create a low-pressure or partial vacuum in the bulb which, of course, was necessary to prevent the oxidation of the filament. With the perfection of the tungsten filament and the development of the inert-gas-filled lamp it became possible to produce a greater intensity of light with a given amount of electric power.

Neon Rare Gas of the Air.

Recently, it has been suggested that nitrogen be used in the canning industry to displace oxygen from the container at the time of sealing. Nitrogen, because of its inertness, does not injure compounds or combinations, and it is believed by some experimenters the nitrogen would, therefore, keep the foodstuffs fresher than would be the case if oxygen were present.

Neon is one of the rare gases of the air. It requires 55,000 volumes of air to extract one volume of neon. It has recently been extracted industrially as an electric current indicator because of its acute sensibility to electricity. In the presence of an electric current it grows a deep orange color and, inclosed in a small glass tube, it is used to indicate if spark plugs of the cylinders of gasoline engines are functioning properly.

By placing the tube against the spark plug while the engine is running it immediatedly registers the condition of the plug whose circuit has been interrupted. It also has an application in incandescent lamps used as signs. The filament of the lamp, in this case, is fashioned into a letter or a word and is made of a special composition steel. It gives off a deep orange glow and, of course, any number of words may be arranged.

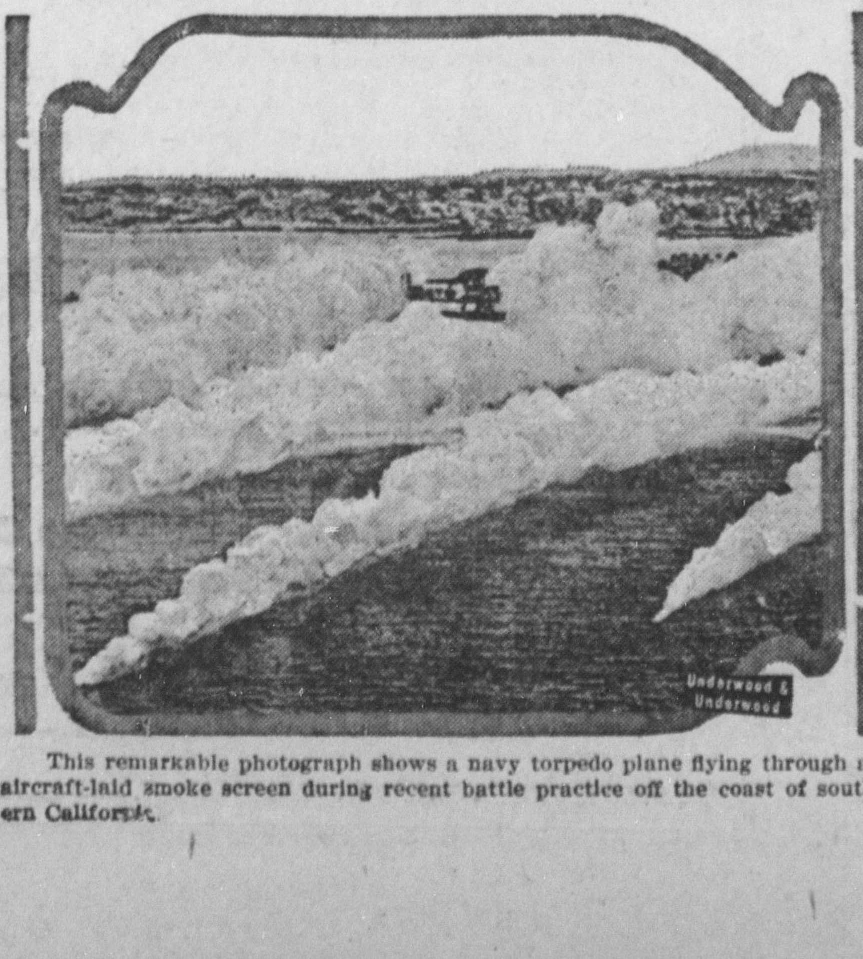
Helium Not Inflammable.

Helium, another of the rare gases, is recovered more economically from natural gas, as it is found in some parts of the country, particularly near Fort Worth, Tex. The air service of both the army and navy are interested especially in the gas for inflating dirigibles.

Helium has the highly important quality of being noninflammable, and in this respect differs from hydrogen, which is highly inflammable, and burns with explosive intensity, forming water vapor with the oxygen of the air. While helium is four times as heavy as hydrogen, it is only one-fourth as heavy as oxygen, and two-sevenths as heavy as nitrogen, so that a balloon inflated with it ascends readily.

A sum of $30,000,000 is invested, probably, in plants in the United States alone which are engaged in the manufacture of air products to be used directly for the industrial purposes. The annual gross sales of these companies amount to approximately $14,000,000.

Torpedo Plane Screened by Smoke



This remarkable photograph shows a navy torpedo plane flying through an aircraft-laid smoke screen during recent battle practice off the coast of southern California.

Waukegan, Ill.—John Smith tiptoed into the house recently so he would not awaken the family and without turning on the light started to undress but was interrupted. He was fined $5 by Police Magistrate Walter Taylor when it was disclosed he had entered the home of Charles Harris by mistake.

FROM GENERATION TO GENERATION

Mothers Advise Their Daughters to Rely upon Lydia E. Pinkham's Vegetable Compound to Keep Them in Health

A Mother's Advice Prevents Operation

Corona, N. Y.—"I had a terrible pain in my left side and had to go to bed every so often. Doctors had told me I must be operated on, but I do not believe in the knife and would rather suffer than go through it. My mother also did not believe in it and she made me take Lydia E. Pinkham's Vegetable Compound because it had helped her. It has also helped me for I am better and able to do all my work. I recommend your medicine and give you permission to use my letter as a testimonial."—Mrs. J. BUSCH, Jr., 11 S. Railroad Avenue, Corona, N. Y.

A Sickly Child

Mahoningtown, Pa.—"I would like to say a few words about Lydia E. Pinkham's Vegetable Compound. About a year ago I thought it would be necessary for me to take my daughter out of school. She was losing weight, was nervous, and when she would come home from school she would drop into a chair and cry, and say, 'Mamma, I don't believe I can go to school another day!' I gave her Lydia E. Pinkham's Vegetable Compound and now she is a healthy, happy, hearty, strong girl and weighs 120 pounds. She has no difficulty in doing her 'gym' work, and she works at home every night and morning, too. I am a mother who can certainly praise your medicine, and if it will be of any benefit you may use this letter as a reference."—Mrs. GEORGE E. WHITACRE, 621 W. Madison Ave., Mahoningtown, Pa.

Every girl wants to be healthy and strong, and every mother wants her daughter to do well in school and to enjoy herself at all times.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for young girls just entering womanhood. Mothers may depend upon it. Remember it is prepared from roots and herbs, contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they will work in a healthy and normal manner.

For nearly fifty years it has been used by women of all ages, and these women know its great value.

Let it help your daughter and yourself.

Two pleasant ways to relieve a cough

Take your choice and suit your taste. S-B—or Menthol flavor. A sure relief for coughs, colds and hoarseness. Put one in your mouth at bedtime. *Always keep a box on hand.*

Masses May Get Tired.

Men who keep up to concert pitch furnish the music for the masses to dance by; and sometimes the masses get tired of dancing.

126,000 Miles of Cloth for Cement Sacks

To keep cement moving from the mills to the many building jobs always under way, cement manufacturers require an astonishing quantity of sacks.

This year the industry has considerably more than 225,000,000 sacks. These represent enough cotton cloth to make a skirt for every woman and girl in the United States—126,000 miles of 30-inch fabric. Even a moderate sized mill which ships say 1,000,000 barrels a year must have 2,000,000 or so sacks.

When a customer returns a sack he gets credit for it, if it is usable or repairable. The convenient returnable sack means that each plant has to have large departments where men and women sew, sort, clean and count sacks continuously. This work alone costs the industry nearly $1,250,000 a year.

And cement manufacturers keep increasing their sack inventories so that they can ship promptly. Last year they purchased a total of more than 100,000,000 new cotton sacks. For replacements alone over 50,000,000 were needed; for increased supplies over 30,000,000. In addition over 18,000,000 paper bags were used representing 7,000,000 pounds of paper.

This problem of containers causes a large and steadily growing investment by the portland cement industry.

GALA DAY AT STATE

Pennsylvania Day to be Observed This Saturday.

All Pennsylvania roads leading to State College will be utilized this week-end by thousands of motorists headed for the annual Pennsylvania Day celebration at the Pennsylvania State College. Most of them will plan to spend only Saturday at the Nittany Valley institution when a Penn State soccer game with Navy and a great intersectional football game with Georgia Tech will be the stellar attractions.

A much greater non-collegiate crowd is expected for this occasion than for the recent alumni home coming when one-third of the crowd of 20,000 that attended the game was composed of graduates and former students. These groups will not attend the Pennsylvania Day celebration which is designated as an affair for undergraduates, their guests and friends at the college. The Penn State Glee Club will make its first appearance of the year on Saturday evening, and all fraternities will entertain upwards of 2000 young ladies at house parties, from Friday until Monday. It is the big day of the year for the undergraduate and his friends.

Real Estate Transfers.

Recorder William H. Brown has recorded the following real estate transfers.

J. W Granville, to J. D. Ammerman, tract in Philipsburg; $3,200.

Thomas G. Ingram to George W. Ingram, tract in Union Twp; $50.

Frank Ingram, et ux, to George W. Ingram, tract in Union Twp; $1.

Hoops M Ingram to George W. Ingram, tract in Union Twp; $1.

Thomas G. Ingram's executors to George W. Holt, et al, tract in Union Twp; $3,800.

Charles Smith to Perry Smith, tract in Haines Twp; $5,500.

Mary C. C. Moyer, et ux, to Joseph M. Confer, tract in Potter Twp; $1,600.

Bellefonte Cemetery Assn. to Annie D. Newcomer, tract in Bellefonte; $50.

Agnes S. Rote, et bar, to N. A. Neese, tract in Spring Mills, $1,900.

Emanuel H. Crader, et ux, to Lewis A. Crader, tract in Gregg Twp; $850.

Anthony Barnoski, et ux, to Edward Gravish, et ux, tract in Rush Twp; $1,750.

Mina R Goheen to William Urban, tract in Taylor Twp; $350.

Arthur S. Wasson, et ux, to John A. Bohn, tract in College Twp; $800.

George W. Frankenberger, to William S. Shelton, tract in Millheim. $275.

Jacob Marks to Walter Cohen, et al, tract in Bellefonte, $2,900.

Martha L Lingle, et bar, to John H. Lingle, et ux, tract in Potter Twp; $1.

William H. Sortman, et ux, to Russell L. King, tract in Marion Twp; $1,500.

Mary E Tibbens, et bar, to Reuben Welty, tract in Bellefonte, $1,800.

Paul Stover, et ux, to Issac M. Orndorf, tract in Haines Twp; $25

Harry Dukeman, sheriff, to C. O. Harvey, tract in Howard, $9,100

Katharine Kemmerer to Mary Jane Krumrine, tract in College Twp; $1.

Sunday Meeting at Romola.

The Fifth District Sunday School Association of Centre County will hold a Sunday School Institute at the Romola Disciple church in Curtin Township, on Friday evening, Nov. 9th, when the following program will be rendered: Devotions, Rev. Croft; "Why We Are Here," Rev. L. F. Sheetz; "Why The Home Department is Needed," William Ridge; "Cellars," Chas. H. Smith; "Teachers' Training," Mrs. V. C. Ridge; "Young People's Work," Rev. T. C. Horn; round table talk; offering; adjournment. All Sunday School workers are cordially invited to attend this meeting. The Brethren in Christ will hold preaching services in their Mission Hall at Howard, Saturday evening, Nov. 10th.

Boys' Prank Troubles Electricians.

Monday night the sign lighting circuit in Bellefonte refused to operate. The electric repair men spent several hours trying to locate the trouble but were unable to do so owing to darkness and the rainy weather. The next morning, after working for several hours, they discovered a tin can on the ground near the Lamb street substation. This can showed evidence of being burned. Upon investigating, they found that some boys had thrown the can across two wires which lead from the switching structure around the corner of the building, causing both wires to be burned off.

HOME TO MINNESOTA

Former Centre Countians Tell of Adventures in Northwest.

Mr. and Mrs. Boyd Grafmyer and their children, Miss Maudelle and Harry, who reside on a tract of timberland of 130 acres, seven miles from Aikens, Minn., plan to return home next week after visiting for three weeks with relatives in Centre County, their former home. Mrs. Grafmyer is a sister of James L. Bailey, local barber, with whom she visited, and also their mother, Mrs. Sarah Hoy, of Lemont, who has been seriously ill. It has been 25 years or longer since Mr. and Mrs. Grafmyer left Centre County to locate in the northwest, being at Jewel, Minn., for a long time. Their recitals of adventures in that section is very interesting.

Mr. Grafmyer is a contractor and had been cutting and erecting ready-cut dwellings and buildings until about four years ago when a disastrous fire wiped out his mill, equipment and considerable property. He had but little insurance the rates on saw-mill operations being almost prohibitive. Discouraged for a time, his health began to fail. Then the wife suggested that they take the insurance money, sell their property and pool their resources to get another start.

The new start was made at the tract near Aikens, which was acquired from the government on somewhat of a homesteading principle. They have succeeded in clearing about 35 acres of it in the time they resided there. It has been uphill work but they are getting nicely started once more.

Miss Maudelle met with a very sad misfortune at the saw-mill about four years ago, in which she lost her right arm. She was attending High School at that time and had been urged to work hard for high grades with the promise of something pretty if she brought home a good report. When she got her report, it was unusually good and she was eagerly hurrying to her father, who was sawing logs. As she stepped on the carriage of the mill, her father unexpectedly started it, not knowing his daughter was near. The jolt threw her and she fell against the log, her right arm being severed by the large saw before the carriage could be stopped.

The young woman seems to have had more than her share of trouble. The family had planned to motor east on Labor Day but was obliged to postpone the trip because of a very painful accident to Miss Maudelle. Being accustomed to outdoor life in the west, with her father and brother very busy one morning (the family rises before dawn,) she rode a mule into the woods to bring in the cattle. Without having informed the Grafmyers, a neighbor had strung a barbed wire line between their lands. Not knowing of it and being unable to see clearly as it was not light enough, she rode the mule against it.

The result was that the flesh and ligaments of her right limb were torn so severely it was necessary to call a physician, whose skillful treatment managed to save her from being a cripple but she will carry the scars for life. The mule also got entangled in the wire and fell, but Miss Grafmyer was fortunate in getting clear of his hoofs, escaping what would have been more serious injuries.

The trip from Minnesota was made in their Ford touring car and little difficulty was experienced, excepting that two axles were broken and there was some magneto trouble. They travel one to two hundred miles per day and figure that it will take about a week or more to make the trip back.

Typhoid at Beech Creek.

A number of cases of typhoid fever have been reported from Beech Creek Twp. the past few weeks and an investigation has resulted in three wells being condemned at the homes of John E. Bowes, Elmer Young and Henry Potter. There are patients from the dread disease in each of these homes.

Read "The Republican" $1.50 a year, in advance.

A SPLENDID RECORD

Dr. George D. Robb, Native of Howard, Makes Good.

Dr. George D. Robb, a native of Howard who went to Altoona in 1893, holds the splendid record of 30 years continuous service as principal of the Altoona High School. He was elected to the principalship of the Altoona High School on Nov. 1, 1893. No special observation of the day, last Thursday, was made, Dr. Robb attending to his work as usual.

Dr. Robb, during his lengthy term as principal, has witnessed the remarkable growth of the High School from a faculty of less than ten members and a student body of below 200 students to the present day student body of over 2,000 with a corps of 75 teachers.

He has guided the school work of thirty classes to be graduated from the Altoona High School. He has been engaged in the teaching profession for 35 years. In addition to his duties in Altoona, Dr. Robb is a member of the board of trustees of Franklin & Marshall college, Lancaster, his alma mater, and of Hood college, Frederick, Md.

Student members of the High School orchestra remembered the principal with a gift of thirty pink and white carnations which occupied a place on his desk during the day. He also received the felicitations of friends and faculty members on the occasion of another year being added to his career of principal of the local institution

Hunters Fined.

L. K. Hogarth and John B. Row, state game protectors, during the week-end rounded up hunters in Clinton County who were accused of violating the laws. One man, hunting without a license, was fined $25 and costs. Five hunters, who had failed to sign their name to their license as required, were each fined $5 and costs. Local hunters should make sure that their licenses are properly signed as the woods in Centre County will also be watched.

Penny-A-Word Column

FOR SALE—Ford roadster 1923 model in good condition. Call Boalsburg 50.

FOR SALE—One good dwellinghouse in first class shape in Milesburg. T. A. Hugg.

FOR SALE—Several coal stoves, suitable for store or shop. Inquire Republican office.

FOR SALE—Room stove and heater pipe, at a bargain, Clair Miller, 172 E. Logan St.

FOR SALE—Maxwell 1½ ton dump truck in good condition. ARTHUR WILSON, Bellefonte, Pa.

FOR SALE—No. 8 Dockash range, fitted for hot water. In good shape. Kline Woodring, Bellefonte, Pa. 43—tf.

FOR SALE—Farms, town property ready cut houses and silos. You will save money. See McVey Co., Bellefonte, Pa. tf.

FOR SALE—Small platform scales; Standard make; weighs up to 400 pounds; good as new. Apply Republican office.

PROPERTY FOR SALE—Consists of 5 room house, 3 acres of ground, all necessary outbuildings; lot of fruit trees. Mrs. Annie Stasko, Box 304, Clarence, Pa.

HELP WANTED—Earn $6-$12 weekly addressing mailing circulars, spare time at home. Instructions 25c. Mailers' List Co., 5651 28th street, Detroit, Mich.

WANTED—Man with car to sell complete line low priced Tires and Tubes. $100.00 per week and expenses. Sterlingworth Tire Co., 3765 Sterling, E. Liverpool, Ohio.

HELP WANTED—Earn $6—$12 weekly addressing, mailing circulars; spare time at home; instructions 25 cents. Mailers List Co., 5651 Twenty-eighth St., Detroit, Mich.

WANTED—Salesman by large New York concern to travel in Pennsylvania. Salary, commission and railroad transportation. See Mr. Dixon, Bush Hotel. x-46

DISTRIBUTOR—County distributor to control sale of product used by institutions, public buildings, and in every home. Sure repeater, large profits. Stewart A. Shannon Company, Pittsburgh, Pa.

OVER THE COUNTY

A number of carloads of potatoes have been shipped from Coburn station at 65 cents per bushel.

A carload of sprayed apples was shipped from the farm of Dr. Frank, near Coburn, last week by his tenant, Willis Breon.

James E. Frohm, of Centre Hall, was a busy huckster last week. He hauled about 500 bushels of potatoes and 40 bushels of apples into the Lewistown district.

The rear axle of the Miles Twp. road roller was broken when used on road work in the western section of Millheim. A new axle was promptly ordered and the roller repaired, being at work again.

Oliver B. Shawver, who has been a successful farmer in Penn's valley, has purchased a farm near Rev. W. H. Brown, a minister formerly on the Penn's valley Evangelical charge. The farm near Aaronsburg which had been occupied by Mr. Shawver was purchased by the Midvale Steel Co. He will sell his farm stock, etc., on Nov. 19th.

The most successful potato grower in Centre County is reputed to be A. C. Kepler, of Pine Grove Mills. He reported a crop of 6,000 bushels this year.

The family of T. H. Rote, of near Coburn has been doubly stricken by diphtheria. The dread disease recently caused the death of his only son, the youngest child in the family, and now Mr. Rote is ill from the disease and the home continues to be quarantined.

Trapping served a very practical purpose for John Confer, of near Millheim, one morning recently when he caught a hawk that had been carrying away and devouring his chichens. Mr. Confer's attention was first called to the hawk when he heard his chickens fussing in alarm and, upon investigation, he saw a hawk fly away from a clump of elderberry bushes where it had killed a young chicken and partly devoured it. The idea of getting the hawk in a trap then came to him and he set four traps. He was rewarded by getting the hawk in one of them.

URGES GALLERY OF REPLICAS

Sir Henry Howorth Suggests One for Copies of Paintings by Old Masters.

In an interesting letter recently published Sir Henry Howorth suggested it would be well to form a gallery of replicas, or old copies of paintings by the old masters.

In his own collection he has three such pictures—a replica of an old copy of the Duke of Grafton's celebrated portrait, of Carondolet, once attributed to Raphael, but now thought to be by Sebastiano Del Plombo; a copy by Ferdinand Bol of the Rabbi, by Rembrandt, at Hampton court; and a copy, believed to be by Dosso Dossi, of his master, Ferrara.

Such pictures, though two of them would not sell for large sums as prices now go, are of great interest and value, says a writer in the London Times. They have what no other form of reproduction can give—the living touch of a master, who, even if not the greatest, was still a master; and the older they are the more likely are they to be faithful to the original, both in the actual material (which counts for much) and in the style of painting. It would be foolish to decry the service rendered by photography and process reproduction.

Only Sir Robert Witt could tell how frequent is the recourse of students and of artists to his great collection of photographs; and of recent years the improvements in color printing have been so great that more than one publisher in England and abroad is able to furnish what can be implicitly trusted as exact reproductions of famous pictures, in which the very brushwork can be minutely discerned. For all purposes of study these are sufficient. The study which they serve is not properly aesthetic.

Why Flowers Droop.

A plant (of which the "flower" forms only one part) consists of three essential parts—the roots, the stem and leaf. Nourishment is taken in from the earth through the roots, passed through the stem, and, reaching the leaves, is, as it were, "digested," the waste being got rid of and the rest converted into its proper constituents. The stem—the body of the plant—is made up of a number of tiny cells, and so long as these are filled with the sap and moisture of nourishment, they stand stiffly out, holding the plant erect. When, however, the run of nourishment is disturbed in any way, then the cells collapse like punctured balloons, and the stem, no longer properly supported, wilts and droops.

MADE THE FIRST PORCELAIN

For Centuries Chinaware Was Manufactured Solely in the Celestial Empire.

For centuries the transparent porcelain which we call, or should call, "china," was manufactured only in the celestial empire.

So superior was it to the ordinary earthenware that on its first introduction into Europe various attempts, all more or less unsuccessful, were made to imitate it. The true porcelain, however, could only be made in China, owing to the fact that a particular clay used in its composition was supposed to be found in China alone.

Then it was found that we, too, had our own banks of that particular clay, and our own porcelain works commenced.

The word "china" still survives, though it has largely lost its old meaning, and we loosely describe as "china" a good deal of stuff that is really ordinary earthenware.

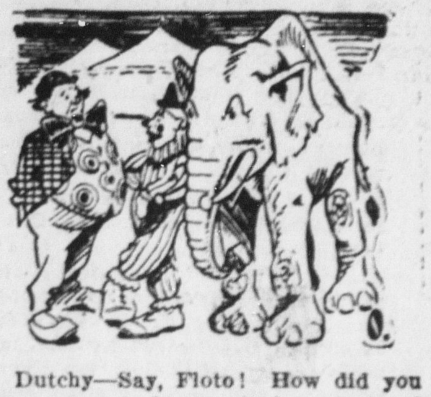
Why Bees Leave France.

German bees won't stay in France. French apiarists are complaining through the French newspapers that swarms delivered to them by the Germans under the Versailles treaty are rapidly flying back across the Rhine. A Berlin newspaper satirically suggests that these swarms of bees are undoubtedly acting on orders from Berlin.

How Italy Harnessed Volcano.

An Italian company has for some time been profitably exploiting the steam of subterranean origin continually being belched out of the fissures in the earth in the volcanic region of Tuscany. In the vicinity the necessary plant has been erected, turbine engines installed, and electricity generated, which is supplied to many towns in Tuscany, and as far as Follonica, on the coast, a distance of over 50 miles. The steam is carried through pipes to tubular boilers, where its heat turns pure water into steam, which operates the engines connected with the generating plant. The current is transformed to high voltages for long-distance transmission, and is subsequently lowered and distributed by subsidiary companies.

FOLLOWED HER ADVICE



Dutchy—Say, Floto! How did you ever come to be an elephant trainer?

Floto—Well, yuh see, my mother always told me to try and master the big things in life.

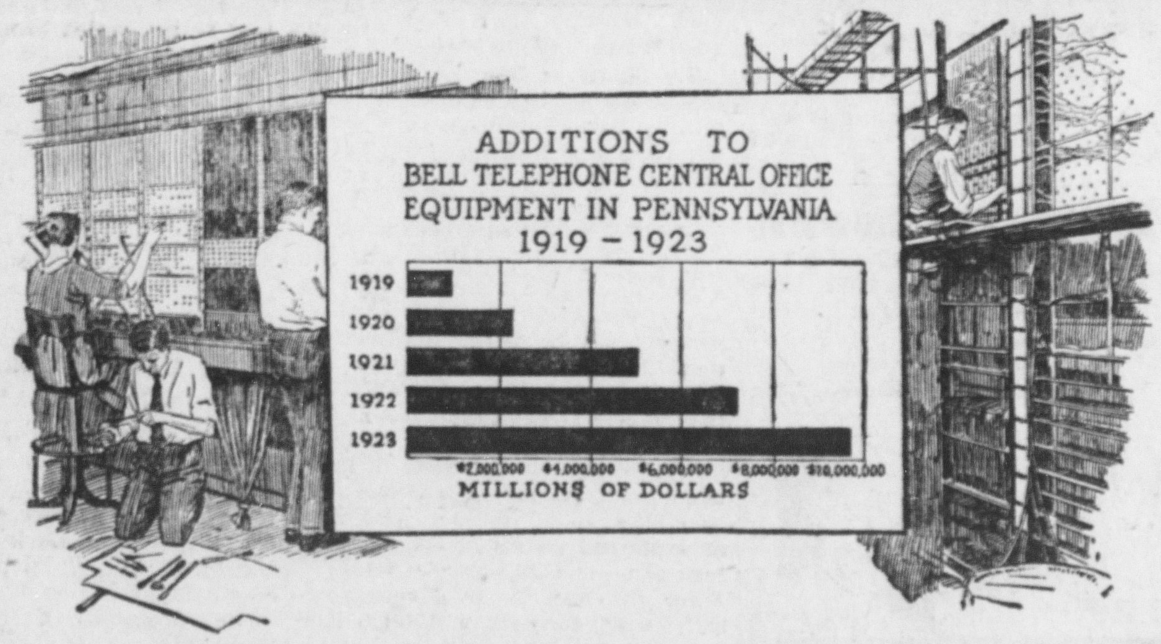
SEE FLYERS! CONSULT AGENTS!

Pennsylvania Railroad System

THE STANDARD RAILROAD OF THE WORLD



A Million a Month

Nearly a million dollars' worth of switchboards and other Central Office equipment is being added to the Bell System in Pennsylvania every month this year.

Every Central Office is included in the construction program—the greatest ever undertaken in this state.

Nearly a million a month *inside* our buildings!

And our 1924 expectation is a monthly average of a million, two hundred and fifty thousand.

Construction is costly now? Yes, but telephones are needed. They are needed *now.* Next year or the year after won't do.

We are building now, because the demands for service are with us now.

The Bell Telephone Company of Pennsylvania

C. W. Heilhecker Manager

ONE POLICY, ONE SYSTEM, UNIVERSAL SERVICE, AND ALL DIRECTED TOWARD BETTER SERVICE

Correspondence

Boalsburg.

John Hess, of Altoona, and Mr. and Mrs. Lewis Lenhart, of Beech Creek, were recent visitors at the Fortney home.

Rev. and Mrs. Ely, of Turbotville, spent several days of last week at the Rev. W. J. Wagner home.

Miss Hazel Mingle, of State College, spent Sunday at the Rowe home.

Mr. and Mrs. Charles Wallace, of Bellwood, were recent visitors with the latter's brother, E. R. Tussey.

Frank Fisher, of Altoona, spent part of last week here.

(From Last Week.)

Mrs. Harry Kuhn and daughter, of Williamsport, are visiting the former's parents, Mr. and Mrs. G. W. Rowe.

Mr. and Mrs. Grant Charles and son, John Shuey and Howard Bricker visited at Wilmington, Atlantic City and Philadelphia from Thursday until Sunday.

Rev. and Mrs. W. J. Wagner are visiting at Gettysburg.

Rev. S. C. Stoyer is attending Synod at Philadelphia.

Mr. and Mrs. George Stuart and son, from Pittsburgh, were over Sunday visitors with relatives here.

Mrs. Blanche Fetterolf, of Pleasant Gap, is spending the week at the John Ishler home.

Cyril Zeckman, of Pittsburgh, was an over Sunday visitor with his parents here.

Mr. and Mrs. J. F. Kimport spent Tuesday at Pine Grove Mills.

Mr. and Mrs. George Homan and daughter visited at Tyrone from Saturday until Sunday.

Mrs. Clara Zerby and daughter, of State College, spent Thursday at the Wm. Stover home here.

Mrs. Ella Hess, of State College, spent several days with friends here.

Benore

Albert Mattern moved to Tyrone on Wednesday. The Stine family moved with them. The men are employed there in the paper mill. There are three families remaining here.

W. H. Ghaner, wife and granddaughter took John A. Snyder to his home in Spring Mills on Sunday in their new Chevrolet.

The hunting season came in on last Thursday with a lot of hunters from State College and Tyrone on our grounds. There was one—Clyde Johnson from State College—got his limit in rabbits. For State College, L. C. Stevens got 4; R. B. Jonnson, 3; Stevens' dog chased them all. The Ghaner boys and dad got 13 rabbits, 8 gray squirrels, 1 pheasant and 2 skunks. Paul Ghaner got his limit in squirrels (6) and also, 4 rabbits. He shot them all with a .22 target. Robert Ghaner, with his father-in-law, Mr. Lewis, and four brothers-in-law, all of Tyrone, got very little game. Their dogs were too slow. There has been very little shooting done about here since the first day.

Oak Hall.

Mr. and Mrs. George Ralston, of Linden Hall, were callers at the Mr. and and Clayton Etters' home on Sunday.

James Williams and son Carl, of Millbrook, were visitors at the Mrs. Grant Houser home recently.

J. J. Tressler transacted business in Bellefonte Monday.

The Oak Hall Stone Co., began crushing stone Tuesday after being shut down for three weeks on account of the crusher being broken.

Benner Walker, who is a patient at the Bellefonte hospital, is reported a little better.

Quite a number of people from this place attended the parent-teacners' meeting at Lemont Friday evening.

Mrs. Thomas Gramley, of Altoona, who spent the last week with her daughter, Mrs. R. C. Lowder, returned home Sunday.

Samuel Reitz and family moved to their new home at Boalsburg Thursday. Adam Rhoads and family will occupy the house vacated by Rietz's.

TO IMPROVE PASTURES

Fall Season is Best Time for This Work.

Many farmers of Pennsylvania and Centre County were greatly handicapped last summer by pastures that were poor and unproductive. Repeated tests have proved that permanent pastures which are poor and unproductive can be brought back by moderate applications of lime or limestone and acid phosphate.

If this work is put off until spring, the rush of other farm work often makes it impossible and if the season is dry results are slow in coming. When the applications are made in the fall or early winter, the freezing and thawing and the abundant rains work the material into the soil where it will give the grass and clover the desired start and stimulus during the coming season. Roads are usually in good condition for hauling the lime in the fall which is seldom true in the spring, and the pastures will not be cut up in getting it on the ground.

"Where reseeding is necessary the lime and phosphate can be applied in the fall," is the suggestion of J. B. R. Dickey, crop extension specialist, at State College. "The seed can be sowed and harrowed in with little labor in the spring. Reseeding without soil improvement is generally wasted effort. A ton of limestone and 300 or 400 pounds of acid phosphate seems to be about the proper treatment."

Marriage Licenses.

Register Frank Sasserman has issued the following marriage licenses:

Walter H. Young,	Howard
Catherine E. Packer,	"
Simon C. Rudy,	State College
Hilda M. McClellan,	" "

Mrs. Samuel Lyons Dead.

Mrs. Mary Lyons, wife of Samuel Lyons, of Lyonstown, died last Thursday morning from infirmities due to her advanced age. She was a daughter of Jesse and Mary Magdaline Lucas, and was born near Howard. Surviving are her husband and the following children: Mrs. Nathan Boughman and Mrs. Clarence Gallagher, of Bellefonte; Mrs. Wilbur Bickel and Mrs. Randall Decker, of Lock Haven; Mrs. Sylvester Sommers, of Snow Shoe Intersection; Mrs. John Walker, of Howard; Miss Hannah Lyons, at home; John Lyons, of Lyonstown, and one brother, Daniel Lucas, of Mechanicsburg. Funeral services were held on Sunday afternoon and burial made at Curtin.

Mrs. Oscar Grubb Dead.

Mrs. Oscar Grubb, a native of Centre County, who resided in Akron, Ohio, during the past 15 years, died on Friday from kidney trouble. The deceased was a daughter of Frank and Carrie Downing, of Bellefonte, her maiden name being Bernice Downing, and was 32 years old. He girlhood days were spent in this vicinity where she was well known. Surviving are her husband; two daughters, Thelma, 14, and Betty Jane, 3; her parents, and two sisters: Mrs. Wilbert Rhoads and Mrs. Charles Grubb, both of Bellefonte. The body was brought here on Monday morning and funeral services held on Tuesday afternoon. Interment in Union cemetery.

Mrs. Luther Strouse Dead.

Mrs. Hannah J. Strouse, wife of Luther Strouse, of Pine Hall, died from hemorrhages on Wednesday morning at 1 o'clock. Deceased was born on the homestead at Pine Hall on Oct. 19, 1884, and hadialways resided there. She was the only child of Mr. and Mrs. Jacob Reish Kramer, the mother preceding her in death. Surviving are her husband, three small children at home and her father, who also resided with the family. Funeral services will be held on Friday afternoon at 2:30 and burial made at Pine Hall cemetery.

Dr. D. K. Musser Dead.

Dr. D. K. Musser, died last Saturday night at the home of his brother Andrew, in Aaronsburg. Dr. Musser formerly had dental offices in Petrikin Hall in Bellefonte, until failing health forced him to close up and go away for a time to recuperate, and later established offices in Centre Hall, where he practiced until recently. Deceased was a son of Mr. and Mrs. John H. Musser and was about 64 years old. He never married. His only survivor is his brother Andrew. Funeral services were conducted from the latter's home yesterday afternoon.

John Lose Dead.

John Lose, one of the aged residents of Benner Township, who made his home with Foster Fanning and family, near Roopsburg, died on Monday afternoon at 4 o'clock from hardening of the arteries. Deceased was about 79 years old. His wife and one daughter, the late Mrs. William Benner, preceded him in death. Surviving are one son, William Lose, of Chicago, Ill., and one brother, Nicodemus, of near Millheim. Funeral services were held this Thursday afternoon and burial was made in Myers cemetery.

Daniel Strawcutter Dead.

Daniel Strawcutter, a well-known resident of Blanchard, died at the Lock Haven hospital at 10:45 o'clock Monday night of catarrhal pneumonia following arterio sclerosis. He was admitted to the hospital Oct. 13. Deceased was 61 years of age and is survived by a son and a daughter, Fred F. Strawcutter and Mrs. Annie E. Rupert, both of Hagleville. Funeral services were held at the late residence this Thursday afternoon at 2 o'clock. Interment in the Baptist cemetery at Blanchard.

Killed by Train.

William Bartley, an uncle of Mrs. James Martin, of South Allegheny street, was killed almost instantly on Saturday afternoon. Six other men who were with him on a handcar on the N. Y. C. avoided serious injury or death by jumping when a freight train bore down on them after unexpectedly rounding a curve. The men had been working near Monument and were going to their homes near Mapes. Mr. Bartley was 66 years. He is survived by his widow and four children.

Susan Mary Geist Dead.

Susanna Mary Geist, widow of Andrew Geist, died at her home in Juniata, on Friday from complications. She was born in Nittany valley, Oct. 12, 1855, a daughter of George and Eleanor Krider. Four sons, six daughters and the following brothers and sisters survive: John Krider, of Altoona; Ed, Miss Emma and Mrs. John Fleck, of Sinking valley, and George H., of Juniata. Burial was made in Kose Hill cemetery on Monday.

Rudy—McClellan.

Simon C. Rudy and Miss Hilda M. McClellan, both from State College, were united in marriage on Saturday noon in the Methodist parsonage of Bellefonte by the pastor, Rev. E. E. McKelvey.

HOW

GOLDFISH NEED ABUNDANCE OF AIR TO LIVE.—People who do not have good luck with goldfish frequently owe their lack of success to mismanagement.

One of the first things to be learned is that the goldfish in its natural habitat is accustomed to plenty of shade. They need this because their eyelids are poorly developed or entirely absent.

Therefore, when fish are put into transparent globes which admit all the light there is and from all directions at once the fish cannot cover their eyes and cannot find a shady place in which to rest or hide.

Stones and other small objects, such as water plants, can be put in the bowl in such positions as to make a little shade between and under some of them.

The activity of live goldfish in glass globes, so thoughtlessly admired by their owners, is a frenzied activity, a vain effort to find relief from glare.

The other fact is that there is air in the water where fish live in nature. Aerated water is a necessity of life for fish. Water in globes is still and free from air. The fish swim about with gaping mouths, gasping for breath and actually smothering for want of air.

Persons who enjoy seeing goldfish in globes will do well to consider these facts.

Radio Is Taught in Sleep.

Teaching the novice how to send and receive radio code messages more speedily by giving him instructions while he sleeps, is a method recently adopted and said to be proving successful at a naval air training station. Before retiring at night, the student puts an ordinary head-set of telephone receivers over his ears. All night long skilled operators send messages, usually ten words a minute in excess of the student's capacity. The next day in his conscious hours, it is reported, the beginner is able to transcribe communications at the speed they came to him during his sleep, and to send code words faster than the day before. Some committed to memory passages of literature flashed to them while they slept.—Popular Mechanics Magazine.

How East Indians Store Hay.

There is practiced in Kasimir, India, a novel method of putting fodder up for winter use. The country lies in a valley among the Himalayas. The chief industry of the people consists of raising fine wool and in making this into fabrics which have carried the name of the country all over the world. A curious custom in some places is that of hanging quantities of hay up among the branches of trees. Why this is done is more than the stranger can guess and he is much puzzled until some native informs him that in winter the snow lies five and six yards in depth and that the supplies of hay, which as he now looks at them seem only as if intended for giraffes, are then easily reached by the flocks of sheep which abound there.

NOTICE.

Notice is hereby given that an application will be made to the Board of Pardons of the Commonwealth of Pennsylvania at Harrisburg, Pa. on Wednesday November 21st 1923 for a pardon for Sandy Fedor, now serving an indeterminate sentence in the Huntingdon Reformatory at Huntingdon, Pa. imposed by Honorable Henry C. Quigley to No. 23 May Sessions 1923, Court of Quarter Sessions of Centre County, for the crime of assault with intent to commit rape.

M. WARD FLEMING,
x45 Attorney for the Petitioner.

CHARTER NOTICE.

In the Court of Common Pleas of Centre County, Pennsylvania. No 64 December Term 1923.

Notice is hereby given that an application will be made to the above named Court on November 23, 1923, at 10 o'clock A. M., under the Act of the General Assembly of Pennsylvania, entitled "An Act to provide for the incorporation and regulation of certain corporations," approved the 29th day of April, 1874, and the supplements thereto, for the charter of an intended corporation to be called CUHECO FRATERNITY BUILDING ASSOCIATION, the character and object of which is the receiving and holding property, real and personal, of and for an unincorporated educational society known and designated at the present time as Cubeco Fraternity, and the successor, successors and assigns of said society, and executing trusts thereof, which purpose is especially authorized by the Act of the General Assembly of Pennsylvania, dated July 15, 1897, P. L. 283, 285, and more definitely for receiving and holding a suitable piece of real estate to provide a home for the members of Cuheco Fraternity during their attendance as students or otherwise at the Pennsylvania State College, and further to execute any valid encumbrance or lien against said real estate for the purpose of financing the purchase of such real estate, and for these purposes to have and possess and enjoy all the rights, benefits and privileges by the said Act of Assembly and the supplements thereto conferred.

J. M. KEICHLINE,
JOHN G. LOVE,
x45 Solicitors.

COURT PROCLAMATION.

Whereas the Honorable Henry C. Quigley, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the County of Centre, having issued his precept, bearing date the 25th day of October., 1923, to me directed for holding a Court of Common Pleas, Orphans' Court, Court of Quarter Sessions of the Peace, Oyer and Terminer and General Jail Delivery, in Bellefonte, for the County of Centre, and to commence on the SECOND MONDAY OF DECEMBER, being the 10th day of December A. D. 1923, and to continue as long as business may require.

NOTICE is hereby given to the Coroner, Justices of the Peace, Aldermen and also such Constables, (that may have business in their respective districts, requiring to report to the Honorable Court) that they be then and there in their proper persons at 10 o'clock in the forenoon of the 10th with their records, inquisitions, examinations and their own remembrances, to do those things to their offices appertaining to be done, and those who are bound in recognizances, to prosecute against the prisoners that are or shall be in the jail of Centre county, be then and there to prosecute against them as shall be just.

Given under my hand, at Bellefonte, the 2nd day of November in the year of our Lord 1923, and the one hundred and forty-seventh year of the Independence of the United States of America.

Harry Dukeman,
Sheriff.

Sheriff's Office, Bellefonte, Pa.

Satisfaction of Mortgage.

To: D. A. Hotchkiss or his heirs and assigns.

Take notice that on the 13th day of October, A. D 1923, Samuel Markowitz presented his petition to the Court of Common Pleas of Centre County averring that he and his assigns, Andrew Liner and Mary Liner, were the owners of all that certain tract of land situate and being in the Township of Taylor, County of Centre and State of Pennsylvania, bounded and described as follows, to-wit:

Beginning at a post and stones on the line of Goss Brothers; thence South 51 degrees East, 84.4 perches to a post; thence South 46 degrees East, 10 perches to a post; thence South 50 degrees West 14.1 perches to a post; thence South 46 degrees East, 44 perches to a post; thence North 48 degrees East, 126 perches to a post on line of Bald Eagle Valley Railroad Company; thence North 47½ degrees West 43.6 perches to a post; thence 49½ degrees West, 14 perches to a post at public road; thence North 42 degrees, 46½ degrees, 55½ degrees, 64½ degrees, 70 degrees, 83 degree and 51 degrees, West 121 perches to a post; thence South 44 degrees West, 41-one sixth perches to a chestnut; thence South 41½ degrees, West 26.5 perches; thence South 49 degrees, West, 40.2 perches; thence South 59 degrees, West 40.2 perches to the line of Goss Brothers, the place of beginning.

Containing as estimated in the survey of John A. Way, 105 acres, be the same more or less.

That an unsatisfied mortgage upon said premises remains of record in the Office of the Recorder of Deeds in and for the County of Centre given by Andrew Kostrzewa to the said D. A. Hotchkiss, bearing date the 30th day of April, A. D. 1904, and that Samuel Markowitz became the owner of said farm and that no interest has been paid thereon nor any demand nor claim made for said mortgage since the 4th day of March, A. D 1909, when the said Markowitz became the owner of the said farm; and no demand made for either principal or interest, and praying for the satisfaction of said mortgage.

WHEREUPON by order of Court, you, the said D. A Hotchkiss your heirs or assigns, or holders of said mortgage, are hereby notified to appear in said Court on the first Monday of December, A. D. 1923 to answer said petition and to show cause why the proper Decree should not be granted and said mortgage satisfied of record.

Railroads
The Promoters
of Progress

The Hall Mark PRR of Service

The Heralds of Prosperity

Did it ever occur to you how necessary the Pennsylvania Railroad System and other railroads are to your well being?

How essential to the convenience and comfort of yourself and family?

Did you ever stop to think of what the railroads have done to facilitate your business prosperity or enhance the development and growth of your community, in its relations to other sections of the country?

Did it ever occur to you, that every dollar expended in the purchase of transporation is an iterest-paying investment, yielding abundant returns in better railroad service, greater prosperity, growth, and development of every interest?

As the irrigation of the ground makes fruitful the soil, so the success of the railroads radiates progress and prosperity.

What Your Co-operation Means

Railroads cannot expand alone. They require your help, your co-operatian, your friendly attitude to attain the aims they have in view—to achieve the best results for the people—the highest type of transportation service.

Without your co-operation progress is shackled and the best efforts of the railroads come to naught.

FIGHTING FOR LEGION BILL

Congressman A. Piatt Andrew, Former Lieutenant-Colonel, One of Leaders for Compensation.

Congressman A. Piatt Andrew of Gloucester, Mass., will be one of the leaders in the American Legion's campaign to obtain the passage by congress of an adjusted compensation bill.

Educated in Harvard and Princeton universities, Congressman Andrew attained a brilliant reputation as an economist. He served as director of the mint under President Taft and before he left Washington had become an assistant secretary of the treasury. With the outbreak of the World war, he became interested in the allied cause, raised a fleet of automobile ambulances and took it to the Belgian front. He drove a car for three months, making trips to the front every night. The constant appeal Congressman Andrew made to Americans for establishment of ambulance sections resulted in the creation of the American Field Service with headquarters at Neuilly. Congressman Andrew was named in charge of the organization.

A. Piatt Andrew.

When Americans left the ambulance service to join the army, Andrew formed a number of "camion sections" to deliver ammunition. Entering the army, he received the rank of lieutenant-colonel.

Named as first commander of the Gloucester post of the American Legion, Andrew obtained permission of the city government to utilize the old town hall for a Legion home, and made it a museum of the great war. He led a movement to commemorate the war dead of Gloucester with a Joan of Arc monument, which is unique in that the base is formed of stones taken from every building in France sacred to the memory of the patriotic girl. He also served as first vice commander of the Massachusetts department in 1919-1920.

Congressman Andrew has been of vital assistance to the Legion in its fight for compensation. In defense of this measure he has said:

"The measure before the house offers to our veterans not only a just and fair, if long overdue reward, but also a reward that has been framed upon the principles of helping the beneficiaries to help themselves, which is the guiding principle of all intelligent and humane legislation."

LEGION IS AFTER PROMOTERS

Georgia Organization Now Boasts Commission to Put Lid on Fake Bouts.

Boxing and wrestling promoters who have been using the name of the American Legion posts to gain attendance for "shady" meets and bouts, will be at a disadvantage in Georgia, because of the establishment of a Legion boxing commission.

Unscrupulous promoters often induce the Legion men to stage a bout under their auspices, fighters failing to show up, or promoters mulcting the public of their money by fake bouts, leaving the Legion men to face deficits and an unenviable reputation in the community.

At the last department convention of the Legion, a commission was authorized to supervise all bouts held by the Legion posts in the state. This body, composed of three Legionnaires, will operate on plans similar to those established by laws in various states.

A registry fee will be charged to each boxer participating and a license exacted for each show. Boxing promoters will be required to pay annually a fee several times that charged the fighters. A representative of the commission will be present at every bout sponsored by the Legion to adjudicate contests among posts, promoters and fighters.

Oh, Those Women.

He had just returned from the prize fight and was all excited over it.

"It was a great scrap, Mary," he said to his wife, "and Red Mike took the count."

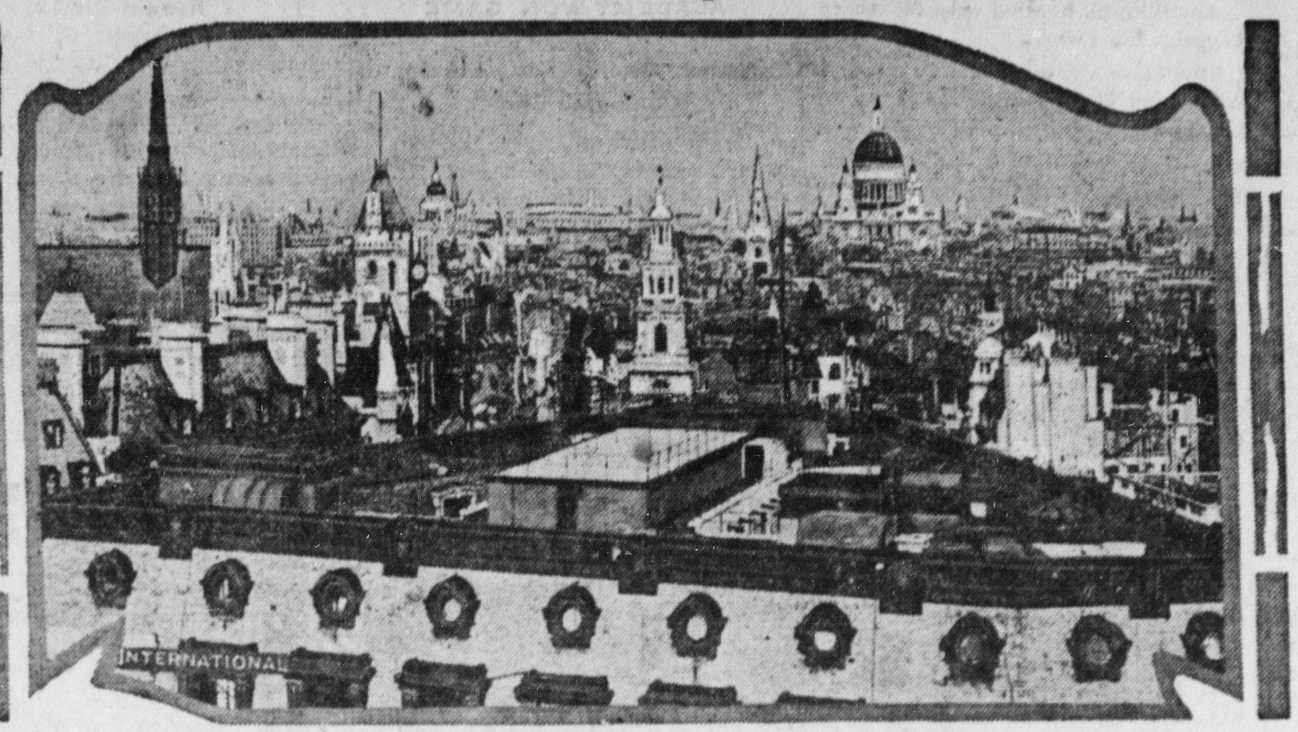
"Yes?" she inquired disinterestedly. "And where did he take him?"

And as he gazed at her in amazement, she added:

"And what became of the countess?"

Then, strong man that he was, he swooned.—American Legion Weekly.

View of London From Top of Bush Terminal



Here is a striking view of the city of London taken from the roof of the recently completed Bush Terminal building, the first real skyscraper in the British metropolis. A few of the prominent buildings in the picture are the St. Paul's cathedral, with large dome, the General Post Office, the Central Criminal Court, commonly known as "Old Bailey", the Law Courts, and the Australia house in the immediate foreground.

21 U. S. Warships Put Up for Sale

Battleships and Cruisers to Be Disposed of in Compliance With Treaty.

Washington.—An advertisement unlike any ever seen before has appeared lately in the newspapers. In matter-of-fact words it announces that 21 battleships and battle cruisers, a naval force equivalent to five divisions, each under a rear admiral, will be placed on sale to the highest bidder.

Who wants to buy battleships, dreadnaughts and superdreadnaughts?

Those who think they would like to own a battleship are referred to Capt. Edmund W. Bonnaffon, Room 1008, Navy Department, Washington. He is ready to dispose of 177,000 tons of battleships afloat, and also will receive bids for ten ships under construction.

But there is a joker in the advertisement for battleship-hungry nations. None of the ships advertised will ever fly other flags, their guns will speak no more, the sea will never see them again, for by February 17, 1925, all 21 of them must be on the junk pile. Their destruction is called for by the treaty signed at the Washington Conference on Limitations of Armament, which treaty, ratified, went into effect the 17th of last August.

21 Warships for Sale.

Their doom was first proposed November 12, 1921, when Charles Evans Hughes, in addressing the conference, suddenly laid down the 5-5-3 ratio; when the direct tones of the secretary of state straightened the back of every surprised foreign delegate, and his startling proposal set British and Japanese naval experts present to making rapid pencil calculations on the paper pads in front of them.

Eleven battleships afloat and ten battleships and battle cruisers under construction are mentioned in the terms of sale. The ten ships on the ways that are destined never to be placed in commission, would have been the most powerful of any navy: six battleships of 43,200 tons, and four battle cruisers, 43,500-ton monsters with the speed of destroyers.

Famous names were to have been given to these battle cruisers; names that thrill readers of the history of the frigate days of the American navy. Who does not remember the fighting records of the old warships Constitution, United States, Constellation and Ranger—saucy vessels that put the fear of the young republic into Algerian and Tripolitan pirates, or threw grappling hooks into the gear and boarded the decks of some of the smartest ships of Britain and France?

With the recurrence of these names in the salvage advertisement the heart of many a navy lover sank. The four battle cruisers that take the names of ships which established the fighting traditions of the United States navy would have been the largest and swiftest capital ships in existence. They were 874 feet long. Their 188,000 horse-power electric-drive engines of twice the power of the Leviathan and the Majestic would have sent them at a speed of 33 knots, or only a few turns of the log slower than the maximum speed of our fastest destroyers.

Fleet Circled the Globe.

Visible evidences of American naval history for the last twenty years disappear when the 11 battleships now afloat, mentioned in the Navy department's advertisement, go to the scrap heap in conformity with the armament treaty. Their 177,000 tons is within a ship or two of the combined tonnage of the 16 battleships sent around the world in 1907 by President Roosevelt. One of these ships, the Louisiana, carried Roosevelt to Panama upon the first journey that a President of the United States ever made away from his country while in office. Others stood guard off Cuba during the second occupation.

When Mexico shortened the terms of her dictators and intervention seemed likely, most of the battleships advertised were in Mexican waters, and not a few of them landed battalions of sailors and marines at Vera Cruz. The Delaware, the largest completed battleship to be scrapped, was with the British grand fleet at Scapa Flow during the World war. The others were upon less risky duty with the Atlantic fleet and helped ferry the American expeditionary forces home after the armistice. In fact, the period of service of these 11 ships doomed to the junk pile coincides with the service ribbons worn by American naval officers up to the rank of captain.

Seven of the advertised ships took part in the cruise around the world, a feat that still remains the greatest fleet movement of its kind undertaken by any navy. When Admiral Robley D. Evans' fleet sailed from Hampton Roads, December 16, 1907, a few of these ships had just been placed in commission, so that their first service and their destruction are a part of two of the most picturesque naval gestures ever made.

Their presence in the Pacific fifteen years ago temporarily halted talk of war with Japan, and when their scrapping was agreed upon at Washington another threatened clash was averted. In other words, the world cruise was the answer of the United States to challenges for the naval supremacy of the Pacific, while the treaty-sealed doom of the ships of this fleet, among others, was designed to secure naval equality and place the great naval powers' fleets upon a defensive rather than an offensive basis.

The veteran vessels of the world cruise for which junk dealers have an opportunity to compete are the battleships Connecticut, Louisiana, Vermont, Kansas, Rhode Island, Georgia and Minnesota. They were the largest in "Fighting Bob" Evans' fleet and they were the pride of the country.

Age of Amazing Changes.

Contemporary accounts of the fleet's sailing, in the light of all that has happened since, bring out impressively the developments in naval warfare during the last fifteen years. The 12-inch guns in the turrets of the Connecticut and other battleships were prodigious then; contrast them with the 16-inch guns in post-Jutland ships. Submarines then were uncertain craft with a cruising radius of scarcely more than a long-distance swimmer. As for aviation, it was only four years after the Wright brothers had first risen and landed successfully in a heavier-than-air machine, and military uses of the airplane were more imaginative and speculative than actual. There was no such thing then as the silver-coated ZR-1, longer than any battleship, which sailed around Manhattan recently. Count Zeppelin had not begun his experiments over Lake Constance when Admiral Evans' fleet left Hampton Roads.

Another invention then in its infancy was the wireless. Although the fleet departed two years before the sinking of the White Star liner Republic, an event which proved the value of the radio in marine disasters, most of the around-the-world fleet were equipped with wireless.

In one respect, however, the fleet fifteen years ago equaled the present navy. It could shoot. On the bridge of the Mayflower were two men who had seen to that. One was a stocky gentlemen in a Prince Albert coat, a silk hat and a low turn-over collar. His near-sighted eyes danced with delight behind thick-lensed glasses as he pronounced everything "bully" and wished "Good luck to you, old fellow," to each of the battleship captains. He was Theodore Roosevelt, twenty-sixth president of the United States. The other was a tall naval officer with pointed beard. A commander's stripes were on his sleeves and hung from the epaulet on his right shoulder was the gold lace of a naval aide to the president. He was William Snowden Sims, who had received his White House detail because of having made good his assertions regarding naval gunnery in an audacious letter addressed over the heads of his superiors to the commander in chief. This naval aid to President Roosevelt became the commander of United States naval forces in Europe in the World war.

Delaware in World War.

One of the ships to be scrapped under the treaty saw action against Germany. She is the Delaware, 20,000 tons, the largest and most recent American battleship to be placed on the superfluous list. With the ships New York, Texas, Florida, Washington and Wyoming, the Delaware was with Battleship Division 9 that was attached to the British grand fleet. She arrived at Scapa Flow December 7, 1917, and the British tars, gazing upon the tall basket masts, termed them "blooming bird cages."

Two months later the American battleship division was maneuvering off the Norwegian coast when watchers on the bridge sighted four white ribbons of foam. They were the wakes of torpedoes from a German U-boat. Two of them were directed at the Delaware and two at the Florida. By quick work at the helm and in the engine room the torpedoes were evaded and destroyers scooted along the wakes to their source to drop depth bombs.

On June 30, 1918, the same day that the Delaware was relieved of duty with the grand fleet by the Arkansas, the American battleship division cruising in the North sea sighted a periscope. The Delaware, Florida, Wyoming and the destroyer Parker opened fire. A second attack was attempted an hour later, and quiet was restored after a few agitated dashes and depth bombs by accompanying destroyers.

To Be Sold for Salvage.

So much for history. According to Theodore Roosevelt, assistant secretary of the navy, the scrapping of these ships, virtually all of which were built during his father's administration, should encourage a new industry.

"In other countries, notably Great Britain," he said, "the industry of ship breaking has been long established. This industry is yet in its infancy in America. The Navy department believes the forthcoming sale may well establish such an industry on a sound basis in this country. We feel confident that these sales will be successful and that their result will not only aid materially the government in carrying out the provisions of the treaty, but will also possibly be instrumental in establishing a new industry."

The vessels will be sold for salvage in four lots, bids closing for the first sale October 25 and for the last November 30. The bidders are under bond to complete their destruction by the 17th of February, 1925, when, under the treaty, all capital ships beyond those specified under the Washington agreement must be scrapped. If the contractors are too slow with their work and naval officers inspecting the ships decide that their complete demolition will not be made by the specified time, then the navy will take charge of the situation. If tie bids are received, award will be by the toss of a coin, in true navy fashion.—New York Times.

U. S. Forests Fund Jumps $1,000,000

Washington.—The government received $5,335,000 from its national forest resources last year. This exceeds receipts for any previous fiscal year, and is about $1,000,000 more than the average annual returns for the preceding five years, the Department of Agriculture announced.

121,280 Persons Now Wear Legion of Honor

Paris.—Those who wear the insignia of the Legion of Honor are literally legion, for the latest report shows a membership of 121,280, of whom the majority are in military classes, numbering 91,345, due largely to the World war.

Fifty-six persons hold first rank, the Grand Cross, among whom are the president of the republic and head of the order, ex-officio, Sir Basil Zaharoff and Gabriel Faure, the composer. Next in order are 356 grand officers, 2,320 commanders, 16,365 officers and 102,180 chevaliers.

Coughs Are Danger Signals

They warn you of conditions which may became serious if not checked at once. Don't delay. Start taking Father John's Medicine.

This old-fashioned food tonic soothes and heals throat troubles and builds new strength and tissue. For over 68 years the standard body-building tonic for all the family.

Poison Ivy.

Although poison ivy is one of the worst offenders it frequently is blamed for poisoning caused by other plants. The Department of Agriculture has a list of more than 100 of such plants that grow in this country, and it is probable that there are others that may be poisonous to some persons. Not all of these plants are equally poisonous, and, too, there is great variation in the susceptibility of persons.—Scientific American.

If it isn't perfectly useless, it lacks much of being a genuine hobby.

The average woman gets more enjoyment out of a cry than a laugh.

Sore Throat
Although more powerful in the presence of saliva than pure Carbolic Acid, Zonite can be freely used as a gargle or throat spray at sufficient strength to destroy all disease germs with which it comes in contact.
The promptness with which Zonite relieves most throat affections has been a revelation to tens of thousands of users of this new form of antiseptic.
Zonite
NON-POISONOUS

CROUP stopped quickly with HOXSIE'S CROUP REMEDY. Excellent for coughs and colds. No opium. No nausea. Sold by druggists. KELLS CO., NEWBURGH, NEW YORK, MFRS.

Here and There.

Col. and Mrs. J. L. Spangler departed on Tuesday for Philadelphia.

Mrs. D. H. Hastings on Tuesday went to Harrisburg to spend the winter.

George Sherry went to Pittsburgh on Tuesday morning to visit with his sons, Oscar and Leo.

Ben Beezer, one of the efficient clerks at the P. R. R. freight station, is taking his vacation this week.

Boyd Musser, wife and two sons, of Altoona, spent Sunday at the home of Mr. and Mrs. W. J. Musser.

Oscar Moore returned to his home in Wilkes-Barre last Friday after visiting here with his brother, H. S. Moore, and family.

The state highway department had had an attractive road sign, designating the Big Spring and Spring creek, placed along the highway on South Water St.

The Logan firemen were called out most of the day on Tuesday to extinguish a fire in the "dump" near the hospital, which became alarming and a nuisance.

A number of children gathered at the Harry Walkey home on Bishop St. on Saturday to help celebrate the first birthday of Harry, Jr., all having a delightful time.

Don't neglect that cough. Wenck's Glycerole of Tar and Wild Cherry will give relief, without harmful dope or alcohol. 25 and 50 cents, all Druggists and Dealers. tf

Mrs. Richard Detling last week underwent an operation in the Geisinger hospital at Danville for cancer on her tongue. She has been seriously ill for some time.

Max. Gamble, James Caldwell and Father W. A. Downes motored to Syracuse, N. Y., on Saturday to witness the contest between Syracuse and Penn State football elevens.

Mr. and Mrs. R. R. Stuart and daughter, of Crafton, who had been visiting friends and relatives in this section, returned to their home on Monday, accompanied by Miss Catherine Musser.

Walter Cohen and Max Kalin last week closed a deal for the Marks property on Ridge and Logan Sts., consisting of a single dwelling on Ridge St. and a double house on the corner. It is understood the properties will be resold.

James Aull and son, James, Jr., Miss Mary M. Hibbs, of Norristown; Harry Hill and Edward Wynn, of Philadelphia, were out-of-town friends who have been at the E. H. Richards home, called here on account of the death and funeral of Mr. Richards.

United Brethren in Christ—Sunday School, 9:30; morning worship, 10:30, "That Boy of Yours." We are celebrating Fathers and Sons' Day at both services. C. E., 6:30; evening worship, 7:30, Rev. T. W. Young, speaker of the evening. Frank B. Hackett, pastor.

"The Pennsylvania News", P. R. R. news sheet, reports Harry B. Watson, a crossing watchman at High street, as ill in the Bellefonte hospital from typhoid fever and his wife, ill from the same disease, in the Lock Haven hospital. Their friends hope for their speedy recovery.

Mrs. Arthur Budinger and Mrs. Erma Croyle, of Snow Shoe, musicians, who have tried composing several pieces, sang one of their recent successes, "Twilight," at the Scenic last week. Cecil Walker also sang with them and the trio were well received, the composition being very worthy.

Charles Dan, foreman in the Bellefonte Lumber Company yard, is rounding out his 39th year of service in that yard. He first started work in the yard when it was established by the late John Ardel and has since remained a steady workman. So familiar is he with the lumber stocks that he can go directly to any size or cut of lumber that may be on hand.

Don't forget the entertainment at the Presbyterian Chapel on next Tuesday evening, at 8 o'clock, when Mrs. John Beckman will, in costume, sing Swedish folk songs and play time songs. This is a hospital benefit under the auspices of the Woman's Club. The tickets are only 50¢ and can be secured at Potter & Hoy's, Hazel & Company, Miss Helen E. Overton, ticket chairman, and members of the Woman's Club.

Passengers and others at the Pennsy station on Sunday morning witnessed a gruesome sight when the train from Tyrone to Lock Haven killed a dog, "Sport", owned by David Barlet, Sr., who thought very much of the animal, which was a pet. The dog was accustomed to running after the wheels on the trains and autos. Mr. Barlet also had another dog, "Tiny" which has refused to eat since her mate was killed.

The pair of young timber wolves which were the attraction in the window display of the Bellefonte Hardware Company, over the Hallowe'en season, were taken out last Thursday and returned to their kennels at the Toner Hugg property at Milesburg. The wolves are owned by Mr. Hugg, who got them from Wyoming last May. They are about six months old and so closely resembled full grown foxes, that many persons looked upon them as gray foxes. Though wolves were so common in this part of the country years ago, they are now so scarce that one is seldom if ever seen.

Roy Witmer, hunting near Milesburg, bagged a big turkey.

Miss Marie Conaghan was a shopper in Altoona on Wednesday.

J. O. Heverly and John Smith each got a nice wild turkey on the lands known as Ten Acres, near town.

Mr. and Mrs. J. S. Williams and son, of Monument, motored to Bellefonte on Wednesday to look after some business.

The Ladies' Aid Society of the Methodist church will hold an oyster and baked bean supper at the church on Friday, Nov. 16, from 5 to 7 P. M. Price 60cts, children under 10 years, 30 cents.

Rev. Dr. Schmidt was elected the president of the Eastern Synod of the Reformed Church, at its 177th annual sessions, held in Philadelphia, last week. This is the oldest and largest of the district synods of the Reformed Church in the U. S.

A. L. McGinley, interior decorator, was painfully injured on Friday when he fell while looking over some work and will be obliged to remain at home for a few days. His son, Linn, is looking after the store during his father's absence.

St. John's Reformed Church—Ambrose M. Schmidt, D. D. minister. Sevices next Sunday at 10:45 Armistice Sunday—The World Court of Justice—An Open Forum. Evening service 7:30, "My Neighbor." Sunday school at 9:30 and Union C. E. meeting at 6:45.

Mrs. R. E. Gill, who spent the past year with her cousins, Dr. and Mrs. A. M. Schmidt, and who is now in London, has just written that she has received definite word from Japan, that her husband, Robert E. Gill, Esq. lost his life in the earthquake that destroyed Yokahama, on Sept. 1st,

Charley Hudson, William Peters and Squire Hoffman were among the Philipsburg contingent who brought the election returns to Bellefonte yesterday. Like some others we could mention, they found consolation in examining returns from the county by looking only at the figures of such Republicans as were elected.

Curtin Askey, one of the best known lumbermen in Central Pennsylvania, was a business visitor in town last Saturday. Curtin has spent virtually all of his life in the lands of big timber and has been a cutter on many a large tract. He is an expert in his line. It is his present intention to occupy the house he recently purchased at Pine Glen, his old home section.

Methodist Episcopal Church—at 10.45, "Christ's Love for the Church;" at 7.30, "The Second Great Modern Invention and Its Effect Upon the Church." Sabbath School, 9 30; Epworth League, 6 30. Next Sunday will be a great day for the Methodists. The Official Board would like to have every member present to clear off all the outstanding bills. E. E. McKelvey, pastor.

Every last Chief and Sir Knight of Bellefonte Castle, No. 357, Knights of the Golden Eagle, are requested to be present at lodge next Tuesday evening, Nov. 13, at which time Grand Vice Chief Gordon A. Williams, of Tyrone, will confer the Past Chief's Degree on all those entitled to receive it. Several neighboring Castles have been invited to attend this meeting. Come and have a good time.

United Evangelical Church—Annual cash financial Rally Day this Sunday. Banquet in Sunday School room Saturday evening. Male quartette from First church, Williamsport, will be with us. Rev. E. C. Basom, B. D., will be the special speaker. Sunday School, 9:30 A. M.; worship, sermon and in-gathering of funds, 10:30 A. M. and 7:30 P. M.; Junior C. E., 2 P. M.; Senior C. E., 6:30 P. M. Reed O. Steely, minister.

It will be welcome news to the many friends of Mrs. Benjamin Bradley, of this place, to learn that last week she underwent a very successful operation for the removal of a tumor and also the appendix. The operation was performed at the Sisters Hospital, at Buffalo, N. Y., and Mrs. Bradley is reported to be recovering rapidly and with every reason to believe that she will soon be restored to vigorous health.

The local fire companies were called to Roopsburg on Friday evening by some person who turned in a call presumably because some brush was being burned in that vicinity. Whether this call was sent in as a "joke" or was done in a moment of excitement, is not known but all persons should consider that calling out the fire companies is an expensive matter and is not a "joke" but a serious mistake when they are called without necessity.

The chief operators of the Bell telephone exchanges in Centre County, excepting Boalsburg, had a delightful get-together meeting here on last Friday, guests of Miss Rose Haupt, local chief operator. Those present included Miss Viola Boob, of Millheim; Miss Sara Zettle, of Spring Mills; Miss Clara Belle Emerick, of Centre Hall; and Miss Viola Peters, of State College. The operators meet frequently to discuss with one another the best methods of handling calls and to consider such matters as will tend to improve their service.

ACADEMY WON GAME

Defeated Strong Pitt Eleven in Contested Game.

The best game of football played on Hughes athletic field here this season resulted in a clean victory for the Bellefonte Academy over the strong Pitt Freshmen eleven on Saturday afternoon. The score was 27--7.

Conacher—clever, husky Canadian fullback for the Academy, got a touchdown early in the game on a nice run and this aroused the visitors to put up their best but all in vain. However, their gameness and the advantage which the Academy had in speed produced one thrilling play after another. It was real college football from start to finish.

O'Neil, flashy Academy halfback, then made the second touchdown by a long run. The next touchdown was made by one of Pitt's men after a very hard fight. Berkes, Academy fullback but who played halfback, made the next touchdown but the goal kick missed, striking one of the goal posts. The score then stood 20—7 and the game was well along in the fourth quarter. Both sides were playing with determined effort—Pitt to hold the score, watching for some chance advantage to pull something and maybe get another touchdown; the Academy eager and watching for their chance. The cheer leaders made ready to urge the Academy on for a touchdown. "We want a touchdown," they screamed, and stopped at a signal from the team. In a moment more they knew why the signal had been given. The team made one of the prettiest plays ever seen on the local field. Every man in his place—Welch, quarterback, passed the ball beautifully to Greeno, right end, who was back of the goal line and dropped on the ball for the fourth touchdown for the Academy. Then, real cheering, another goal kick, both teams settled down for a few minutes of line plunge plays and the game was ended—another victory for one of the best teams in the history of the Academy.

Coach Snavely, director of athletics at the Academy, has made good in the short time he has been here, as the last two games show that organization play did more to make victory possible than any other factor.

Penn State lost to Syracuse by the score of 10—0.

Reports on Game.

Thomas Mosier, game protector, said on Tuesday: "I am safe in saying that at least 225 turkeys have been killed so far and the total will be twice as many as last year. Pheasants are scarce excepting in some sections. Quite a large number of squirrels have been shot. The rabbits are not working right and not so many have been killed as was expected."

Thieves in Nittany Valley.

Chicken thieving in Nittany valley is reported and poultrymen should be on the lookout. On Hallowe'en nigh, the coop of William Miller, of Lamar, was entered and 75 chickens stolen, 18 being left. On last Thursday night, the bold robbers paid him a second visit but broke into his garage this time, stealing tools and a spare tire from his automobile.

RED STONE PIPES OF INDIANS

Made From Soapstone Found in the Northwest Territory—Place Held in Great Reverence.

In the northwest territory, upon the summit of the dividing range between the St. Peter's and Missouri rivers, and in the latitude of St. Anthony's falls, the Indians have long procured a peculiar variety of red steatite or soapstone, of which the red stone pipes of the region are made.

The locality is held in great reverence by the Indians and until comparatively recent years they strongly opposed any attempts of the whites to visit it. From the extent of the excavations and from the graves and ancient fortifications, it is judged that the place must have been frequented by different tribes of Indians for many centuries.

The pipes made of this stone are heavy and usually of rather plain form, decorated by bands and ornaments of lead, which appear to have been run into depressions made to receive it and then smoothed down. The stems are long and curiously carved sticks of hardwood, sometimes flat, frequently ornamented with gayly-colored feathers and horse hair dyed to a scarlet hue.

Likes "Iron" in His Diet.

The man who was operated on at the State Hospital for Epileptics in Parsons, Kans., and had 27 spoons and other articles removed from his stomach has changed his menu to door keys. For a week he was growing better and two attendants guarded him continuously. But when an attendant was taking the patient's temperature he snatched a door key from a ring carried by the nurse and swallowed it before she could take it away from him. His condition at present is too weak to permit another operation.—Exchange.

How X-Ray Has Been Developed.

According to competent medical authority, new developments in X-ray movies have been achieved by the use of a new method of sensitizing the photographic plate so as to record new wave lengths never before photographed.

Recent Births.

Mr. and Mrs. Clyde H. Corman, of Bellefonte, on Oct. 20, a daughter, Mabel.

Mr. and Mrs. David Hughes, of Wyoming, formerly of Bellefonte, on Sunday morning, Nov. 4, a daughter.

Mr. and Mrs. John F. Gordon, of Bellefonte, on Oct. 24, a daughter, Charlotte Ann.

Mr. and Mrs. Harry Showers, of Nittany, on Sept. 27, a daughter Marine Ruth.

Mr. and Mrs John Vittikks, of Bellefonte, on Oct. 24, a daughter.

Mr. and Mrs. Earl Saxon, of Bellefonte, on October 16, a son, Jack.

Mr. and Mrs. J. H. Kline, of Bellefonte, on October 12, a son, Clayton Albert.

Mr. and Mrs. Benner Gummo, of Bellefonte, R. F. D., on October 6, a son, Wilbur LeRoy.

Mr. and Mrs. Donald U. Gettig, of Bellefonte, on Oct, 5, a daughter, Ethel Ruth.

Mr. and Mrs Charles E. Hinds, of Mingoville, on Oct. 3, a daughter, Jennie Elizabeth.

Mr. and Mrs. Leo H. Confer, of Bellefonte, on Oct. 2, a son.
